Demos Set Jan. 13 As JP District Caucus Date

Petitions Circulated By Independents; GOP Plans Meeting Tonight

A caucus of Democratic voters in Madison county justice of the peace District No. 1 is scheduled at 8 p.m. Jan. 13 at the American Legion Dugout, 740 Broadway, Venice, for the purpose of nominating party candidates for justice of the peace and constable who will seek office in the forthcoming April 4 general election.

Similar meetings are being planned by Democrats in the four remaining JP districts within the county, while Madison county Republican scheduled two meetings this week which could result in the setting up of JP district nominating caucuses within that party.

The JP District One includes all of Granite City, Venice and Nameoki townships, plus Precinct One of Chouteau township.

New Law Applies
The caucus was called by Madison County Democratic Central Committee Chairman Walter Simmons in compliance with a recently enacted state law which will greatly reduce the number of justices of the peace and constables as of spring, and calls for the holding of party caucuses for JP and constable nomination between Jan. 9 and 16.

There are currently 15 JPs and five constables in Granite City, Venice and Nameoki townships, while five JPs and five constables hold office in Precinct One and Two of Chouteau township. Five districts have been established for Madison county.

The new state law provides for only one JP and one constable in each reorganized JP district, all of which follow township and/or township precinct boundaries, and will generally bring a much larger area under the jurisdiction of the officials concerned.

Interest Indicated
A good deal of interest and competition among prospective nominees in predominantly Democratic Madison county is expected, due to reduction in number of positions available. Independent candidates are also expected to make strong bids.

Two Escape Injury In Freak Auto Mishap

Two local persons escaped injury in a freak mishap Tuesday evening when they were riding along Old St. Louis road west of U. S. Highway 67a and a transmission flywheel crashed through the floorboards of their 1961 auto. The car caught fire.

Driver of the auto, David Ginzard, 19, of 2647 Highway 67a, said the flywheel whizzed past his head when it broke through the floorboards.

Seeing the flames, he quickly stopped the auto, and he and passenger, Novella Hay, 20, of Logan street, jumped out.

The blaze damaged nearly the entire front portion of the auto, including the motor and tire, and the interior was scorched.

Auto Tire Catches Fire
The right front wheel of a 1958 auto driven by Virgil Crider, 2830 Palmer avenue, locked, causing the tire to catch fire at 6:30 p.m. Tuesday at 27th street and Madison avenue. Main station firemen were called to the scene to extinguish the blaze. Damage was set at \$50.

Auto Parts Stolen

Hubbard Miller, 2609 East 24th street, reported to Granite City police Tuesday that a generator and coil were stolen from his 1955 auto while it was parked at his home.

17 DAYS WITHOUT QUAD-CITY TRAFFIC DEATH

Olegna Fuschi, comely young pianist whose concert tours have taken her to many American cities and abroad, will make her Quad-Cities debut in a keyboard program at Granite City high school auditorium Tuesday. The time is 8 p.m.

The California-born pianist is the second artist to appear here this season under auspices of the Tri-City Community Concert Association.

Other Concerts
Other concert performances at the 1960-61 season are to be presented here during the next four months.

New York Concert Trio
Monday, March 6, and Irene Dalls, mezzo-soprano, Sunday, April 8.

Teen Town 'Snow Princess' Crown Goes To Miss Spiroff

(Picture On Page 8)

More than 300 teenagers and adults witnessed the crowning of the 1960 "Snow Princess," Miss Diane Spiroff, Tuesday evening at the YMCA.

Miss Spiroff, 18, a top senior at the Granite City High School, will have a wait of 30 days in the county jail after being sentenced this morning. He entered a plea of guilty to a charge of taking a motor vehicle without the owner's consent.

30-Day Jail 'Wait' For Impatient Cab Rider
A taxicab passenger who said he grew tired of waiting in the freezing cold for a taxi cab, was sentenced to 30 days in the county jail after being sentenced this morning. He entered a plea of guilty to a charge of taking a motor vehicle without the owner's consent.

Lloyd Earl McCoy, 23, of 1608 Wilson avenue, was taken into custody within a few hours after the missing cab was reported at 7:50 p.m. Tuesday, gave a signed statement to Granite City jail admitting the charge. He had driven off in the cab from the Naborhood tavern, 2330 Nameoki road, and abandoned it at the Octopus Club, 4008 Nameoki road.

He said the driver, upon arriving at the Naborhood tavern, walked inside and began talking to friends. McCoy went outside and waited in the vehicle, and then decided to drive it home.

However, he met up with a friend and went to the downtown area. He was taken into custody while trying to hitchhike at Niedringhaus and Madison avenue, shortly before midnight.

The taxi theft was reported to police by the driver, Leroy Crawford, and Patrick Meyer, operator of the taxi firm.

Lovey Cup Presentation
Miss Spiroff was crowned by the retiring Princess, Miss Sparks, and at the close of the ceremony the new princess received the lovey cup presented by Miss Meyer.

The coronation was a traditional royal coronation for Miss Spiroff and her escort, Robert Summers, and later all members of the court participated. A pink nylon full length gown with a gathered bodice and a sweetheart neckline was worn by the new "Princess." Three tiers of orange ruffling edged the bottom of the skirt and the traditional white satin brocade robe of Snow Princess was worn over the gown.

Attendees, Escorts
Miss Sally Stewart, escorted by David Stark, was attended in an evening gown of blue satin. Dainty bows on a background of white.

Madison Bank To Erect New Building

Plan Larger Quarters At 6th And Madison; Move During Summer

Groundbreaking will be held in January for construction of a bank building at 600 Madison avenue by the First National Bank in Madison. It was announced yesterday by James R. Alcott, chairman of the board, and Dr. John E. Lee, president.

Construction work is to begin in February, and the bank plans to move from its present location at 401 Madison to the new structure during the summer. The change will afford more room and a wider variety of facilities, including drive-in banking.

Application for the change of location and for the necessary expenditure was submitted to the U. S. Comptroller of the Currency, and the Federal Reserve Board. Dr. Lee said construction cost estimates range in the neighborhood of \$200,000.

Contract Signed
A contract has been signed with the Nelson Building Co. of St. Louis for both the design of the bank building and the general construction contract. The firm is planning to utilize local firms as sub-contractors, as much as possible.

The new bank building will be erected on a corner site that the banking institution has owned for some time. Definite plans for the construction were made Tuesday night, and the design of the building is being completed.

Growth of the First National Bank in Madison has caused the need for more space in its quarters to become an increasing problem, and the move is being planned for a long period, it was explained.

Parking Area
A customer parking area will be provided at the Sixth street and Madison intersection, and the most modern type of banking facilities will be constructed, he said.

Additional details are to be announced following a report to the city council on the annual meeting of the bank early in January. Final plans and specifications have not been fully completed.

Dr. Lee said plans for use of the present bank building are indefinite. There are offices on the second floor of the building, and the first floor is being used for the beginning of the work.

Bids Will Have to be Taken On
(Continued on Page 7, Col. 8)

Madison Council Names Architect For Remodeling

The Madison city council Tuesday night brought its calendar year to a close in action preparatory to remodeling of the city hall and relocation of the fire station.

Under terms of the contract, Architect Virgil H. Dulgeroff is to receive 8 1/2% of the construction-remodeling costs as his fee. The council members are understood to have given lengthy consideration to the proposal.

No aggregate cost figure was advanced at public council sessions, although in caucus, Mayor Stephen Maera and the council members are understood to have given lengthy consideration to the proposal.

Two weeks previous, Dulgeroff had presented an outline and prospectus for conversion of the Madison theater-Firemen's Hall building into a fire house, and extensive remodeling of the hall. The plans, he said, were not fully matured and subject to revision.

His preliminary sketches and floor plans were turned over to the city council for review. The council members are understood to have given lengthy consideration to the proposal.

Await Committee Report
The committee to which the matter was sent is made up of Chairman Benjamin Bosworth, Aldermen Emil Ulanski and Raymond Kozielec.

The chairman was absent Tuesday night, and no committee report was made. This is now expected to be ready for presentation at the next council session.

However, Tuesday's action in hiring an architect seemed to indicate intent to proceed with renovation and remodeling of the two adjacent brick buildings on Third street.

Salient features of the plan called for relocation of the fire department to the theater building, a property owned by the Madison volunteer fire company.

The space vacated in the present fire hall would be utilized for use of the police force, and a cell block and workshop for a police repair room and enlarged quarters for fingerprinting and filing.

Expand Court Rooms
The city's capitol building would be moved from the second to the ground floor area, now occupied by the police department. (Likewise contemplated is enlargement of the second floor court rooms.)

In the presentation and during Tuesday night discussions, the city's target date for the beginning of the work. Bids will have to be taken on (Continued on Page 7, Col. 8)

Salary Boosts Planned For City Officials

Business Forecasts For New Year Today

What does the future hold for the Quad-Cities and Illinois Metropolitan Area? Annual forecasts of economic conditions are published in today's issue on Pages 10, 11 and 12.

Written especially for the Press-Record by 25 business and civic leaders, the statements include reviews of 1960 and informed estimates of what the year 1961 will bring to this community.

Hope To Extend Madison Boundary Line Eastward
With expansion regarded as a major need of the city of Madison, the city council has made for extending boundaries toward the east, Mayor Stephen Maera announced yesterday.

He said the Illinois state legislature will be asked in 1961 to ease present annexation laws. Noting that a Democratic administration will take office in the state as well as nation next month, the mayor also said there is hope for approval of the city's bridge plan.

Gateway To Growth
But he said this would be justified if it would serve as a gateway to further expansion that would accomplish two things: enable the present business city to resume its growth and lead to future addition of property that would be self-sustaining, providing a large tax base on which to base city taxes. He noted that health factors also would be a consideration.

A requirement that property to be annexed must be contiguous to the city on at least three sides has delayed eastward expansion, since owners of some large tracts do not feel city should acquire them.

Undergoes Surgery
Irma Blattner, 1222 Robin street, Venice, is recovering at St. Louis Hospital after surgery which she underwent Tuesday.

Salary increases also are slated for the eight aldermen to be elected in April. The pay is to be increased from \$15 a meeting (\$45 a month) to \$25 a meeting (\$75 a month). At present, the eight aldermen elected two years ago receive the \$25-per-meeting pay, while the holdover council would not be able to secure such information and clerk could not be required to divulge it.

Discussing the salary for the office of city treasurer, Meyer said the city should consider any payments to the officer for handling parking meter funds. However, the treasurer is no longer handling that job which is now assigned to a part-time employee who receives \$150 an hour, said city expenses and clerical help.

340 Holiday Traffic Toll Is Predicted
Local police authorities, who in the past nine days have handled 112 traffic accidents in which 24 persons were hurt, are hoping for clear weather and dry pavements for the long New Year weekend.

The National Safety Council this week predicted holiday weekend accidents would kill 30 persons and injure 14,000 throughout the nation. Over the Christmas weekend, 488 traffic deaths were recorded, which was under the 530 forecast by the National Safety Council.

Ice and snow of last week were responsible for 112 accidents in the Quad-Cities. Of the total, 74 mishaps were recorded in the city of Granite City police—an average of 12-a-day.

MORE ABOUT Demos Set

(Continued from Page 1)

nomination obtained at the county clerk's office. These petitions also must be filed between Jan. 9 and 16.

Independent Candidates
Listed by Miss Holt as having petitions for justice of the peace for District One were Walter Emde, 1249 Niedringhaus avenue; Howard Baedens, 1501 Joy avenue; George Wamecke, 592 East Chain of Rocks road; Mitchell; and Mrs. Elvira Thurber, 1532 State street.

Circulating petitions seeking nomination as constables are Orland Ehling, 2830 West 20th street; and J. Oliver Lovance, 2554 Benton street.

Miss Holt said it was entirely possible that other potential independent candidates may have picked up petitions at her office, since they are not required to state names and addresses. She said she would not attempt to obtain them, or may do so for another person.

GOP Meets Tonight

The executive committee of the Madison County Republican party organization met last night in Wood River and a county-wide meeting of Republicans was set for tonight at the court house in Edwardsville, at which time dates and locations for Republican party caucuses within the various JP districts are expected to be decided.

At party caucuses of this type, a committee is chosen to preside, and eligible members of the party may vote on party nominees for constable and justice of the peace from the floor.

Independent candidates seeking nomination must obtain the valid signatures of between five and eight percent of the legal registered voters residing in the JP district involved at the time of the last general election.

Small Cart Run Over By Auto, Boy Injured

A small boy, seven-year-old Timothy Therrien, suffered only minor bruises Tuesday afternoon when the small cart he was riding was virtually demolished by the right rear wheel of an automobile in the 2700 block of Saratoga avenue.

The boy, a second grader at Wilson grade school and son of Mr. and Mrs. E. J. Therrien, 2440 Terminal avenue, was taken to a physician's office for examination. He suffered bruises to his head and legs, his mother said. The motorist, Robert L. Goff, 33 of 2274 Spaulding avenue, told police he was driving north on Saratoga when he saw two boys in the street pushing another boy in the car.

"I turned to the left all the way over to the left side of the street to give them plenty of clearance and just as I thought I had cleared them, the cart turned suddenly and went under the right rear wheel of the car," Goff said. "The entire front of the cart was demolished and he took the boy and damaged cart and pushed him out of Timothy's Christmas gifts."

Teen Groups To Launch 'Help Kids' Movement

Representatives from Madison county teenage organizations will meet at 2 p.m. Jan. 8 at the YMCA here to try plans for a "help kids with problems" movement.

The meeting has been called by the Kirkpatrick Homes Teenage Club. Its purpose is to discuss the entire problem in an effort to solve them through the "Big Brother and Sister" approach.

Earl C. Hoch, district supervisor of the Division of Community Services of the Illinois Youth Commission, said an experiment in solving the problem of teenagers offering their help to other youths is already underway in this area on a limited scale.

TRY A WANT AD

Objectors To \$97,000 Street Jam Meeting; Topic Ignored

The Granite City council room was filled with in and out of towners Tuesday afternoon as the city's proposal to spend \$97,000 motor fuel tax funds to construct a street for a new million-dollar shopping center was discussed.

In the absence of Mayor Davis, who informed the council by letter that he was out of town for the evening, the senior alderman, Rufus LeMaster, presided. No mention was made of the street.

In the audience were members of the Granite City Real Estate Board, headed by Sam Wolf, and the Granite City Civic League, headed by Dr. Leo Coleman, local dentist.

The 50 to 60 persons in the audience were not called upon to speak, but many were seen to button hole aldermen after the session and to express their views. Prior to the meeting, only a few aldermen appeared in the lobby, while the others arrived just in time for the start of the session.

Real Estate Board President Wolf told the Press-Record after the meeting that the group still is "actively interested" in what the city plans to do with the \$97,000 motor fuel tax funds. "We're not at liberty at present to divulge just what steps will be taken," Wolf said, "but we want the council to know that the Real Estate Board intends to continue its opposition to an expenditure of \$97,000 of the taxpayers' money for the construction of a street in an undeveloped, privately-owned tract."

"The Real Estate Board wishes to make it clear," he continued, "that it welcomes the possibility of other shopping centers and acknowledges the need for a motel in the Granite City area."

Wolf said the board has less than 1½ years ago a number of realtors, together with interested persons contributed \$200 each into a fund in an unsuccessful effort to build a community-owned motel.

"The principal objection of the Real Estate Board is the contemplated use of motor fuel tax funds for construction of a street through an undeveloped, privately-owned tract, which would take priority over restoring and improving existing streets now in need of repair."

**Area Supervisors
Study Zoning Maps**
Three local area supervisors today are studying preliminary township zoning maps at a meeting at the court house in Edwardsville.

The maps show general land use, including future residential, commercial and industrial construction, building of new roads and conservation.

County zoning regulations will be based on the maps. An engineer from a Chicago firm retained by the county to draft the maps is discussing the overall program for zoning of unincorporated areas.

Purpose of the meeting is to bring in line the land-use objectives of the planning firm and county supervisors.

Representing the townships were Harry Briggs, Nameoki; Arthur Moore, Venice; and Joseph Troecker, of Chouteau township.

**Editor Reappointed To
Illinois Traffic Body**
C. E. Townsend, editor of the Press-Record, was reappointed today by Gov. William G. Strickland to one of five public members of the Illinois Traffic Study Commission.

Franklin D. Sturdy, Marvin R. Dee and Joseph H. Braun, Chicago, and M. P. Hall, Danville. The appointments are non-salaried and for one year.

Warrant Filed

A warrant charging careless driving was served Tuesday afternoon on Dale Borcheit, 22, of 2133 Delmar avenue, on a complaint filed by Donald Zimbelman. Borcheit was released on bond for a hearing at a later date.

**Portell Names Alton
Man To Court Post**
Circuit Clerk Willard V. Portell this week announced at Edwardsville that the appointment of Dan Alexander of Alton as a deputy in his office, effective Jan. 3. Alexander is president of the Northwest Madison County Democratic Club.

Portell said a majority of the Democratic precinct committeemen at Alton and County Chairman Walter T. Simmons had endorsed Alexander for the post. Alexander, 22, is married and the father of two children. He has been employed as a bank teller at Alton and also is attending classes at Southern Illinois University at Alton center.

Two Traffic Charges

Robert R. Lindsey, 25, of 2748 Myrtle avenue, was arrested early Wednesday morning by Granite City police who charged him with failing to observe a stop sign at East 23rd street and Nameoki road and careless driving. He posted his driver's license as bond for a hearing Jan. 5.

MORE ABOUT Dairies Protest

(Continued from Page 1)

for stores in Illinois. The rate was set at 32 cents on orders of three to six cases, 31½ for six to 12 cases and 31 cents for over 12 cases. Each case contains nine half-gallons of milk, or an equivalent order amounting to 16 units of dairy products.

With a higher price being maintained in St. Louis and St. Charles, where the bulk of its business is located, it is "extremely doubtful" that the 31-cent level offers the St. Louis firm's raw material, packaging and delivery costs, the Press-Record was told.

No Returns

Since the milk is not dated, although it is within the city limits of St. Louis is dated, some concern has been expressed locally over the quantity orders, especially since no returns are being permitted.

Local dairies accept returns and use a date code enabling them and store operators to determine the date milk was received. The St. Louis dairy also normally accepts returns, but the date milk was received is not a discount plan, it was asserted.

Dairies in this area have been maintaining a 34-cent wholesale price this month.

Meanwhile, the House subcommittee this week announced a final report on its investigation of dairy pricing practices and said Missouri dairies "continue to flood" this area with prices below those of smaller dairies.

Charges Verified

A preliminary report was issued last spring after a field investigation by Brooks Roberts, chairman of the subcommittee staff. In both cases, it was announced that allegations of Illinois dairies had been verified.

The subcommittee called for laws to require publication of all pricing facts to prohibit price discrimination tending to bring a monopoly and to give the FTC power to seek temporary injunctions to halt unfair practices.

Wilwyn of England is in South Africa, Worden of France is in England and Mahan of the United States is in Canada. The three former Laurel International winners are serving as stallions.

Switchman, 66, Dies 3 Days Before Retiring

Jesse Earl Gonterman, 66, succumbed to a heart ailment Wednesday night. Just three days prior to the date he was to have retired as switchman after working 38 years for the Terminal Railroad Association.

Mr. Gonterman was declared dead when taken to St. Elizabeth Hospital at 9:15 p.m. Wednesday. He had been under a physician's care, and no inquiry will be conducted.

He lived at 1514 Robin street, Venice, and had been a Venice resident for 38 years. He planned to retire Saturday.

A native of Roodhouse, Ill., Mr. Gonterman attended the Venice Methodist Church and was a member of the Brotherhood of Railroad Trainmen.

Surviving are his wife, Mrs. Mildred Gonterman; two sons, John and Jesse Earl Jr., and a daughter, Mrs. Margaret Eck, all of Venice; two brothers, Ora and Gust Gonterman; two sisters, Mrs. Pansy Root and Mrs. Gladys Chan, all of Loodhouse, and 10 grandchildren.

Funeral services are given in today's obituary column.

July 4 Fete Being Discussed By Board

Granite City park district commissioners will decide at their January meeting if a Fourth of July festival and fireworks display will be held next year in Wilson Park.

The commissioners, during a meeting last night, instructed Recreation Director Harold Brown to make tentative arrangements with the operators of carnival rides and outline other details.

Between 12,000 and 15,000 persons attended the fireworks display and festival at the park this year.

Alarm But No Fire At Madison Nursing Home

A fire alarm was sounded during below-freezing weather at 3:37 p.m. yesterday at the Madison Nursing Home, 1521 Second street, occupied at the time by 27 elderly persons. But no actual fire had occurred, Madison authorities learned with relief.

A short-circuit developed in the thermal unit of the nursing home's fire alarm system. When the alarm was set off, operators of the establishment immediately notified firemen, and all trucks of the department hurried over the one-block distance to the scene. A search of the building showed no blaze, and it was not necessary to evacuate any of the residents.

5 Pick Up Petitions For City Offices

With petitions picked up this week by five prospective city office seekers, there now are 32 aspirants planning to run for 12 city offices—mayor, clerk, treasurer, police magistrate and eight aldermanic posts.

Latest to obtain petitions from City Clerk A. L. Stevens were four indicating they would run for aldermanic posts: M. G. (Mike) Reinhardt, 2210 Garfield avenue, now a township justice of the peace for the Eighth Ward; Homer Brown, 2148 Benton street, for the Third Ward; Robert O. Gaughan, 2108 Edwards street, incumbent, Second Ward; and John C. White, 2311 Logan street, Fourth Ward.

Thomas Griffith, 2410 Grand avenue, obtained petitions indicating he would seek the office of city treasurer.

All of the city officers and aldermen now holding office have obtained candidate petitions from the city clerk with the exception of City Treasurer Frank Sappington.

On the township side, the only prospective candidate to secure petitions this week was Cy Walker, 2261 Woodlawn street, for the office of assistant supervisor.

The filing period for the April city-township election opens Jan. 9 and ends Feb. 13, with an added five days for candidates to withdraw.

Cuts Eye In Fall

Robert Worthey, 7, lacerated his left eye in a fall on the stairs Wednesday evening at his home at 1307 Kirkpatrick Homes.

The wound required five sutures. He was treated at St. Elizabeth Hospital. He is the son of Mr. and Mrs. Earl Worthey.

State St. To Be Reopened For 2-Way Traffic

State street is to be reopened to two-way traffic for its entire length within a few days.

City council members voted Tuesday night to amend the one-way street ordinance to reopen State street between 21st and 24th streets. Earlier this year, the section between 18th street and Niedringhaus avenue was returned to two-way traffic in the city's program to adjust traffic flow in the downtown business district, and a short time later the short block extending from Niedringhaus avenue to 21st street was returned to two-way traffic.

Objections were raised by Second Ward Alderman Samuel Whitmer, who has conducted surveys along State street to find opinion about "evenly divided" with business people favoring the return to two-way.

Whitmer and Emerald Daves fought against the amendment.

With the change, the remaining one-way streets in the central section of the city are Cleveland blvd., southbound from 20th to 24th street; Edison avenue, northbound from 18th to 24th street; and Grand avenue, northbound from 18th to 24th street.

Bend Road News...

MRS. EILEEN ROBINSON
TR. 7-3198

NEW YEAR'S SERVICE

The Bend Road Baptist Church held baptism Sunday after the church services. It was held at the Second Baptist Church, The Brotherhood meeting was held Tuesday with work done on the church.

The church will hold a "watch hour" New Year's Eve service which will be held until midnight and coffee and cake will be served at intervals. Christmas candy and oranges were given out in the church Sunday.

VISIT IN OKLAHOMA

Mr. and Mrs. Gerald Morris and Mr. and Mrs. Arlie McGonia and sons, David and Perry, went to Blackwell, Okla., for Christmas. They visited Mr. and Mrs. John Lantz. Mrs. Lantz is the daughter of Mr. and Mrs. DeGonia and sister of Mrs. Morris.

CLUB HOLIDAY PARTY

The Horseshoe Lake Rod and Gun club held a Christmas party Sunday. There was a large lighted Christmas tree and Santa Claus gave out presents to the children. The adults also exchanged presents.

Mr. and Mrs. Kenneth McDowell and children, Eddie and Connie, went to Dixon, Mo., to visit McDowell's parents, spending Christmas with them.

Mr. and Mrs. Raymond Herschbach had their daughter, Margie, home for the holidays. She attends a school in Normandy, Mo.

Mr. and Mrs. James O. Russell had as guests for Christmas dinner Mr. and Mrs. William Cooley, Russell's brother-in-law and sister.

Mr. and Mrs. Russell Robinson had as visitors during the Christmas holidays Mr. and Mrs. Oscar Hercher, parents of Mrs. Robinson, and Mr. and Mrs. Ben Conway, Mr. and Mrs. Roger Sullivan and Kenneth Hercher. The Herschers are from DeSoto, Mo.

Special Education Courses At SIU

Courses for those interested in being certified as teachers of special education will be offered during the winter quarter at SIU's Southwestern Campus.

In announcing new courses of interest in the education division, Dr. Cameron Meredith, acting division head, said two 400-level courses, "Primary and Characteristics of the Mentally Retarded" and "Directed Observation of Exceptional Children" must be taken concurrently. They will be followed, in the spring quarter, with methods courses and student teaching in special education.

The special education program is being headed by Dr. Mark Tucker, who holds degrees from New York University's school of Education, Hunter College and the University of Southern California at Los Angeles. His experience in special education includes serving as principal of the Illinois Children's Hospital teaching exceptional and gifted children at DePaul University and the University of Chicago. Before joining the SIU staff he was co-ordinator of Education for Exceptional Children at the University of Kentucky.

Dr. Tucker will be available for advisement during winter quarter registration Jan. 3 and 4, according to Meredith. Classes for the winter quarter begin Jan. 6.

Course offerings in health and safety are being increased, Meredith said. Plans are underway for development of a program enabling students to minor in driver training and safety education. The program is under the supervision of Assistant Professor Richard Spear who holds a doctorate in health and safety from Indiana University.

Bus Route Rehearsal Here On Jan. 19th

A rehearsal on a change in routing of the Community Coach Co. East Granite bus line will be held in Granite City at 10 a.m. Jan. 19 in the city hall, according to a notice received by the council Tuesday night from the Illinois Commerce Commission.

The rehearsing concerns a change in the routing of northbound buses from the 2500 block of Delmar avenue to the 2500 block of Edison avenue. The change was made after protests were filed with the ICC at Springfield last summer by residents of the 2500 block of Delmar avenue who objected to the buses running in both directions.

The bus company was permitted to make temporary changes in the route and the rehearsing is to determine if the change is to be permanent.

Motorist In Accident Pleads Innocent

A motorist charged with failure to yield right-of-way following an accident Wednesday morning in the 1400 block of 19th street pleaded innocent to the charge before Police Magistrate Gasparovic and is to return next Wednesday for a hearing.

He was George Krpan, 38, of 810 Grand avenue, Madison, who posted his driver's license as bond. Police said he was driving away from the curb to travel east and was involved in an accident with the eastbound auto of Robert Kendall Miledyk, 33, of Kirtland, Mo.

No injuries were listed.

Quad-Cityans To Greet 1961 In Many A Way

A look at the Press-Record's calendar of the holidays will provide prospective and yet undecided New Year's eve celebrants a many-tened choice of places in which to opt 1961. Many local area churches have special programs arranged.

And if the weatherman is at all co-operative, the turn-out for the New Year's celebration should be as good as one since, if there are headchoppers, there are two consecutive holidays (Sunday and Monday) for recuperation.

Saturday night's New Year merriment will be the accompaniment of horns, hats, bells, confetti and serpentine streamers. Dancing will be in order at some of the spots.

For the funsters on hand to the old ring in the new, and more particularly for those who drive, there is a recently coined junction which has a very telling point:

"If you take one for the road, you'll have a cop as a chaser."

SIU To Give Awards To Science Majors

Southern Illinois University has announced a science achievement awards program for chemistry, mathematics and physics majors at its Southwestern Campus.

In making the announcement this week, Dr. Kermit G. Clemens, acting head of the science division at SIU's Southwestern Campus, said, "This incentive to high scholarship in science is possible through the cooperation of the Chemical Publishing Co. of Cleveland."

The science awards will be granted to the freshman or sophomore who maintains the highest average in his first two quarters of study in chemistry, mathematics or physics. The chemistry awards will be engraved copies of the newest edition of the "Handbook of Chemistry and Physics." The mathematics award will be an engraved copy of the recently published "C. R. C. Standard Mathematical Tables."

Purpose of the awards program, Clemens said, is threefold: to encourage undergraduate students to take advanced training in these courses; to stimulate greater interest in life careers utilizing mathematics, physics and chemistry; to preserve the competitive spirit and study qualities essential in producing quality students and citizens.

Clemens announced also three science courses to be offered for the first time at the Southwestern Campus. These courses, which begin with the winter quarter (Jan. 3 to March 17) include a botany course, Spermatophytes—a five-hour course on the 400 level; mathematics 335, Concepts of Geometry; and a five-hour course in Atomic Physics.

Christmas Party Held For Baton Students

Members of a local baton team had a Christmas party Tuesday by Miss Marilyn Champion.

The party included skating at the local roller rink in the afternoon, and their usual exchange of gifts.

Attending were Sharon Aytes, Joann Bailey, Carol Ann Biggs, Betty Brule, Bonnie Burns, Phyllis Carlbough, Linda Field, Cheryl Gilmore, Sheri Hacken-thal, JoAnn Heine, Susan Hill, Brenda Hunt, Janice James, Barbara Johnson, Barbara Korman, Elena McDuffy, Glenda Mitcherson, Kathy and Mary Modene.

Jackie and Janis Neud, Linda Ohms, Diane Ozbun, Judy Padlock, Sue and Shirley Palmer, Jane and Mary Poole, Debbie Prexley, Sandra Rehkop, Beverly Ann Rutledge, Rhondalia, Jody and Gene Sauer, Brenda and Glenda Sorenson, Sandra Stallings, Donna and Nina Storm, Patty Jo Lester, Adele Travis, Barbara Turnbough, Paulette Voloski, Marjorie Weckman, and Debbie Wein.

Parents of some of the children attended the skating party and assisted in serving refreshments.

Pole Struck By Auto Splinters Door Of Laundry

The rear door of the Shelton Laundry and Cleaners building, 1822 Cleveland blvd., was splintered when a utility pole which was lying on the ground for parking purposes, was shoved through the door, apparently by a motorist some time Wednesday evening, police reported.

Owner of the establishment, Grady Shelton, said nothing was stolen, and surmised that the pole lay on the ground, was struck by a car whose driver did not see it in time. The name of the driver was not learned.

Bottles Smashed In Street

A complaint was received about 10:40 p.m. Tuesday at Granite City police headquarters that a group of youths in a green 1949 or 1950 auto were smashing bottles in the street at Terminal avenue and Maryland road. Police were unable to locate the youths.

Many church congregations will gather about the altar for Watch Hour vigil services Saturday night. Services will begin at about 10:30 p.m., and are climaxed at the midnight hour in song, prayer and meditation.

In many homes, also, families, friends and neighbors will gather to watch the coming of the striding New Year. There will be many another viewing television showings of New Year's observances in far-flung places.

GC Solons Refuse To Share Polling Places

A request from County Clerk Miss Eudalia Hotz for county use of the April 4 city-township election polling places for the district election of a justice of the peace and constable was rejected Tuesday night by Granite City council members.

"We can't do that," Alderman Walter Nonn exclaimed. "The poll workers would never get finished. Let the county take care of its own polling places and we take care of ours."

Nonn pointed out the city has only 21 voting precincts for the April 4 city-township election, while the county has 28 precincts in Granite City township.

In a letter of request sent to City-Town Clerk A. L. Stevens, Miss Hotz said all townships with the exception of Granite City and Alton had agreed to the arrangement.

She said it is likely the state legislature will adopt emergency legislation during its session which opens this month to eliminate the necessity of voter registration in the justice of the peace and constable.

GCHS Grabs Title At Normal Wrestling Meet

Defending Champions Edge Oak Lawn 79-70 In 16-Team Class 'A' Division

Granite City high school's wrestling squad, with memories of a humiliating 32-8 defeat at Waukegan last week still fresh, took to the mats at University high school in Normal with a vengeance Tuesday and Wednesday to bring home its second successive championship from the largest holiday prep grappling meet in the state.

Bill "Red" Schmitt's grunted motors and equipment with five feet of water. The next warrior meet is a dual affair here with Edwards on Friday, Jan. 6, at 8 p.m. The Warriors downed the Tigers 32-15 in one previous meeting at Edwardsville this season. Varsity and Jayvee meets will be carried on simultaneously, Schmitt reported.

"Stiff competition!" was Schmitt's comment on the meet. Decisive in the final tabulation of points was Granite City's ability to handle Oak Lawn representatives in individual matches. The Warriors won four of five bouts from the runners-up.

Three GCHS Champs
Three individual champions from GCHS were crowned. Undeclared Ernie Taylor defeated Jim Bath of Oak Lawn 2-1 in the 103-pound final; Roger Bloodworth stopped another Oak Lawn wrestler, Ed Weiss, in the 120-pound category 6-0; and Bob Cruse defeated Mike Alkonis of Ottawa 4-1 for the title in the 154-pound weight class.

The team title depended on the results of these three championship bouts. Taylor's victory gave GCHS a 73-67 edge, and with Oak Lawn needing victories in both remaining matches, Bloodworth clinched the matter with his decision, giving the Redmen an insurmountable 70-67 advantage.

Two Loss Titles
Granite City's Bill Riddings was the only defending champion at the tournament, but he lost a 3-2 squeaker in the semi-finals. Pekin's Larry Parks, 127-pound 1980 state champion, was beaten also, in the final. Riddings and Buddy Felchlin picked up important points by winning third-place bouts yesterday. Riddings with a 7-0 win over Hal Clark of Pekin and Felchlin by stopping Bill Mullins of Bloomington 8-2.

The three individual GCHS champions matched the Warriors' record at the tournament last year, as did the placement of two wrestlers in runner-up slots. Sam Fazio reached the final in the 138-pound class but was defeated by Ray Bruck of Oak Lawn 8-3, and Elton Poole lost to Bob Hallberg of Galesburg in the final at 145 pounds, 5-2. But the runner-up finishes also brought Granite City important team points.

Friday Meet Cancelled
Granite City's scheduled meeting with undefeated Riverview Gardens of St. Louis county here tomorrow night has been cancelled due to lack of heating at the GCHS gym, caused by a water line break which flooded the building's basement and covered the gym floor.

Semi-Finals

103 — Taylor over Bush (Bloom.) 5-4 in overtime; 120 — Bloodworth over Salerno (Rich Twp.) 7-4; 127 — Semits (Oak Lawn) 138-145; 138 — Fazio over Ferguson (Bloomington) 4-2; 145 — Poole over Camp (Oak Lawn) 13-1; 154 — Cruse over Carpenter (Pekin) 1:00.

Final Bout

Three place bouts: Felchlin defeated Mullins (Bloomington) 4-1; heavyweight — Riddings defeated Clark (Pekin) 7-0.

Warriors Bounced In 1st Round At Centralia

GC Plays Feitshans In Consolation Bracket After 59-51 Loss To Benton

Granite City blew a 29-21 halftime lead in a first-round game of the Centralia holiday basketball tournament last night and fell to Benton 59-51 in a mild upset.

The Warriors were thus eliminated from championship bracket play, but will seek to reach the consolation semi-finals at 9:45 tonight when they meet Springfield Feitshans, a 78-39 victim of Centralia in another of the eight opening games played yesterday.

One major upset was recorded in the first round. A Southwestern conference member, Wood River, fanned fifth-ranked Benton 59-58 on Ron Miller's only basket of the game with five seconds left to play.

Another area team, Belleville, was forced into the consolation bracket by undefeated Belleville 58-54 after giving a good account of itself.

Should Granite City defeat

Feitshans in the final game of tonight's session, it would advance to the consolation bracket semi-finals, meeting the winner of the Marion-Salem contest. A loss tonight would eliminate the GC team from further competition in the tourney.

Loon 3, Schultz 2, Matt 2

"Absolutely our poorest game of the season" was the way Warrior Coach Andy Sullivan was quoted this morning. Granite City was outscored by the shorter Benton squad.

"We played ragged ball and

were not aggressive under the basket," Sullivan said. Warriors shot just 32.0, and Benton was not much warmer with a 39.0 mark, one which was improved by 21 winners.

Madison Is Eliminated

Kahoks, Litchfield Meet In Finals Of East St. Louis Tourney Tonight

Collinsville and Litchfield will face each other across the centerline in the final game of a holiday prep basketball tournament tonight for the second time in less than two weeks.

Both advanced to the championship finals of the East St. Louis tourney last night, Collinsville with a comeback, 71-57 victory over Madison and Litchfield by virtue of a 51-38 decision over vastly-improved East St. Louis.

The Panthers are 8-1, having absorbed their only defeat of the season when they were beaten by Collinsville in overtime in the final of the Kahok Christmas tourney, 78-75. Collinsville will be seeking its 10th straight win in the championship game, which will begin at 8:30.

At 7 p.m., Alton will meet Peoria Central for consolation honors. The Redbirds squeaked past Paris in a consolation semi-final yesterday afternoon, 53-51, and then watched Peoria Central trim East St. Louis, Lincoln 53-43 to become the consolation survivor in the lower bracket.

Madison had the stands at

the East St. Louis field house buzzing after coming back from a 12-29 first-quarter deficit to grab a 31-26 lead, at the end of the third quarter.

The Kahoks hit eight of 10

first-quarter shots, but a stout defense, led by big Ed Walker, kept the Panthers scoreless over the first 16 minutes of play, limited Collinsville to six points in the second period.

The No. 1-ranked prep team

in the state came back with a full-court zone press in the second half, and to no one's surprise, it rattled the Trojans, however, who threw the ball away the first two times they gained possession.

Collinsville pulled even on

Riddie's layup with 5:21 left in the third period, and then went ahead on his follow-up free throw. Ken Origen sent Madison ahead for the last time at 41-40 with a jumper, but Riddie came back with another three-point play and the Kahoks took the lead for keeps at 43-41.

By the quarter's end, the Kahoks had a 49-43 advantage. Bob Simpson's pretty drive down the middle with 4:38 remaining in the game saved things up for the Kahoks, giving them a 58-45 lead.

Simpson's bucket was the only field goal by Collinsville in the final period, but the Kahoks proved to be well-schooled in the art of free throw shooting. They cashed in on 20 of 22 opportunities from the line, at one stretch hitting 12 charity tosses in a row.

Madison committed 11 last-quarter fouls and missed seven of 15 free-throw chances. Riddie turned the tables on Walker in the second half, limiting him to one point while scoring 12 in his self. Walker drew his fourth personal midway through the third period and had to play cautious defense the rest of the way.

Simpson, who found the hoop at least once in each quarter, was again Vergil Fletcher's top point-getter with 23, and played a fine floor game. He didn't miss from the free throw line, canning all nine of his opportunities.

The Kahok-Trojan scoring: Madison-Hrysko 16, Griggs 14, Walker 14, Freeman 8, Gravelle 4, Woodfolk 1, Haynes 1, Burton 0, Andrews 0, Petty 0, Venarsky 0; Collinsville-Simpson 28, Riddie 19, Basco 12, Moten 6, Meyer 4, Brennan 4, Meadows 3, Byrkit 0, Matkakis 0, Hildreth 0, Temple 0.

Firing Range Built At Madison City Hall

Newest addition to the Madison city hall facilities has not yet attracted much public attention, for it is hidden away deep in the basement. But it has occupied the off-duty thoughts and efforts of Madison police for many months and has now been completed in time for opening during the holiday season.

The new installation is a pistol firing range complete with targets and all other equipment necessary to aid officers in improving their marksmanship. It also will be suitable for use as a training room, and is to be utilized for firing of air rifles by

boys' groups to be organized under police supervision. With so much shooting going on, it might appear that the range would interfere with other activities in the city hall building, located at 1330 Third street. But a thick concrete floor, plus an acoustical ceiling and walls in the new room, are expected to keep the sound from becoming a problem.

Valued At \$10,000 With most of the labor and material donated, the range has been created at only a small fraction of its estimated value of \$5000 to \$10,000. Police Chief Harry Fraundorf reports. He and other members of the department shared in the work.

The room appears virtually complete, but additional safety equipment is planned at the entrance, and a movable gun rack and distance marker is to be added.

While the room presents a modern appearance, with tile flooring, varnished wood paneling and fluorescent lights, a great deal of the work and material does not show, the chief explains.

Formerly a coal storage area, the northern end of the basement floor has been unused since a gas furnace was installed elsewhere in the basement. But many heating and drain pipes blocked the area and had to be re-routed, a substantial task.

45 Feet Long The room is 45 feet long and 16 feet wide, with marksmen stationed at the western end and the target area at the eastern end.

Steel has been set at a 45-degree angle behind the three targets, and the design of the range is considered "foolproof" from an accident standpoint. All bullets are deflected downward by the metal backdrop and land harmlessly in sand.

Lights provide a brilliant illumination on the targets, each of which can be brought rapidly on a pulley system to the man firing so that he can check his score. Several vents have been installed to afford adequate circulation of air.

It is planned to limit use of the firing range to pistols and to the "BIS" gun to be used by boys.

As an added safety factor, a special door is being installed to guard against entering the room while firing is underway. This is necessary because shooting will take place at various distances.

'Y' Schedules Swim Classes In January

New sessions of intermediate and beginner swimming classes are set to begin early in January at the local YMCA pool, Mrs. Lee Pfaff of the YMCA staff said today.

Starting Tuesday, Jan. 10, intermediate instruction will be given from 7 to 8 p.m. on Tuesdays, and on Wednesdays from 11 a.m. until noon.

Beginner classes will meet on Wednesdays from 7 to 8 p.m. on Thursdays from 11 a.m. until noon and from 7 to 8 p.m. on Fridays from 7 to 8 p.m. on Saturdays from 11 a.m. until noon.

Mrs. Pfaff said swim students should register in advance for the courses, and may do so by calling the YMCA at TR. 6-7200, giving name, address and telephone number, plus the class preferred.

Cost for one of the three-month courses is \$8. Instructors will be Mrs. Pfaff, Miss Doris Gonzalez and Mrs. Pauline Schank.

Weekend Cage Fare Limited To 3 Tourneys

Other than wrap-up sessions in three holiday tournaments, the pickings are pretty slim for followers of area high school basketball this coming weekend.

No games are scheduled in the Southwestern, Midwestern or MBC high school conferences, although representatives of each are involved in one of the three post-Christmas Invitational.

Locally, the consolation and championship games in the eight-team East St. Louis tournament are on tap tonight, beginning at 7:30.

The Freeburg Invitational also winds up tonight, while consolation and championship semi-final games continue today and tonight at the big Centennial meet, which will conclude on Friday with first, third and consolation games to be played.

The first action for local schools following the reopening of schools is scheduled for Friday, Jan. 6. Madison, undefeated in the Midwest conference, will travel to Highland then while winless Venice faces 9-0 Triad on the Knights' home floor.

Granite City and Lincoln of Venice will both return to action on Saturday, Jan. 7, the Warriors at home to Wood River and the Rams hosts to Mounds Douglas.

SOCIETY

Crane-Conner Nuptials Tuesday At Calvary Baptist

Miss Carol Ann Conner, a daughter of Mr. and Mrs. Marvin R. Conner, 2802 N. Main road, and Gary Crane, whose parents are Mr. and Mrs. Elmer Crane, 2845 Washington avenue, were married Tuesday evening at Calvary Baptist Church.

Rev. Wilbert Snider officiated at 7:30 in a holiday setting and the bride's parents gave a reception afterward in the church basement for approximately 75 guests.

Given in marriage by her father, the bride wore a white lace gown over satin and a fingertip veil of tulle. She carried a bouquet of red poinsettias and white carnations. She was attended by her sister, Miss Patricia Conner, as maid of honor, and Miss Shirley Crane, the bridegroom's sister, bridesmaid. Both wore red velvet gowns with matching bands in their hair and carried red poinsettias.

Ray McQuarrie was best man, and serving as groomsmen and ushers were Gale Crane, the bridegroom's brother, Jack Conner, a brother of the bride, and Albert Newsome.

The newlyweds will reside in Carbondale where both are juniors at Southern Illinois University. They are at home for the holidays and will resume their studies Jan. 5.

ENTERTAINS SISTER

Mr. and Mrs. Joseph Acquaviva, 2801 Indiana avenue, had as their guests for Christmas the latter's brother-in-law and sister, Mr. and Mrs. Frank Giampolo of Bryn Mawr, Pa. The visitors left for their home Tuesday evening.

Chuck Gauen

about this question:

"Having the proper kind and amount of insurance protection can help assure that Happy New Year we all giggle about. Is a free insurance survey by an independent local agent the answer to adequate insurance?"

MISS JUDITH M. BROWN, daughter of Supt. and Mrs. Wensel L. Brown, 1707 Fourth street, Madison, her engagement to Raymond H. Wertheis, a son of Mr. and Mrs. Herbert Wertheis, 2300 Waterman avenue, was announced at a holiday dinner party in the Brown home.

Former Resident Is Engaged

One of the many holiday engagement announcements here was that of Miss Karen Janice Korliko, a daughter of Mr. and Mrs. John Korliko of Alton, former Granite Cityans, and Larry Leiby Reid, whose parents are Mr. and Mrs. Roy A. Reid of Tampa, Fla. The announcement was made at a family party in the home of Mr. and Mrs. Lucie Korliko, 2800 Washington avenue, grandparents of the bride-to-be.

Miss Korliko attended the local elementary and high schools and was graduated from the Alton high school. Both young people are students at Southern Illinois University Residence Center in Alton. Their wedding is planned for the coming summer.

The bride-elect is a niece of Mr. and Mrs. Gene McGovern, Mr. and Mrs. Pete Mack and Mrs. Kay Hallacre, all of this city.

HOLIDAY GUESTS

Mr. and Mrs. Wilford Klein-schmidt, 247 State street, had as their guests over the Christmas holidays Mr. and Mrs. Robert Craven, of Elion, Mo., and Mr. and Mrs. Ernest Abbert and son of Lake Ozark, Mo. The visitors were recalled to their homes due to the unexpected death of their brother, Judge Charles Abbert of Tuscombia, Mo.

Miss Brown And Raymond Wertheis Are Engaged

Announcement has been made of the engagement of Miss Judith M. Brown, younger daughter of Supt. of Schools Wensel Brown, and Mrs. Brown of Madison, to Raymond H. Wertheis, whose parents are Mr. and Mrs. Herbert Wertheis, 2300 Waterman avenue.

The news was disclosed at a holiday dinner party given for the families by Mr. and Mrs. Brown at their home, 1707 Fourth street.

Both young people are students at Southern Illinois University in Carbondale. Miss Brown is junior and her fiancé is a senior.

Their wedding will take place after graduation from school.

LUNCHEON AND PARTY FOR DAUGHTER

Mrs. Marie Whittle of Edison avenue entertained a group of girls at a holiday party Tuesday for her daughter, Joyce.

Luncheon was served at 1 o'clock at a table decorated in keeping with the season and afterward there were games with prizes for all.

Those present were Mary and Ruth Beauman, Nancy Edwards, Hedy Brinkmeyer, Janis Zimmer, Cindy Tenney and the guest of honor.

MISS RUTH A. THOMAS, daughter of Mr. and Mrs. Robert G. Thomas, 1416 Niedringhaus avenue, whose engagement to E. Marshall Schroeder Jr., son of Mr. and Mrs. E. Marshall Schroeder, 1534 Johnson road, is announced.

SELECTED AS QUEEN CANDIDATE

Miss Martha Ann Little, a daughter of Mr. and Mrs. Douglas F. Little, 2738 State street, has been elected by the pledge class of Alpha Delta Phi fraternity at the University of Illinois to be a candidate for the Junior Interfraternity Queen at the Junior IF ball at the Illinois Union Jan. 14.

Miss Little, a freshman, is enrolled in the Liberal Arts College. She graduated last June from the Granite City high school.

VISIT RELATIVES

Mr. and Mrs. Walter Pearson, 2568 State street, were guests for the Christmas holidays of the student at Southern Illinois University Residence Center in Alton, Mr. and Mrs. J. Howard Pearson and family of Madison, Ind. They returned Tuesday evening.

Thomas-Schroeder Engagement Is Announced

Mr. and Mrs. Robert G. Thomas, 1416 Niedringhaus avenue, are announcing the holiday engagement of their daughter, Miss Ruth A. Thomas, to E. Marshall Schroeder Jr., whose parents, Mr. and Mrs. Schroeder Jr., reside at 1534 Johnson road. The bride-to-be, a graduate of the Granite City high school, is a senior student at the Jewish Hospital School of Nursing in St. Louis. She will graduate in mid-August 1961.

Her fiancé, also a graduate of the local high school, is a junior for the Christmas holidays of the student at Southern Illinois University Residence Center in Alton, where he is majoring in education.

Tentative plans are being made for a late autumn wedding.

the various aspects of construction and remodeling. Mayor Maeras has noted that if the firefighters are provided new quarters in the old Firemen's Hall, ample facilities will be available for city offices, bureaus and departments in the municipal building, which dates back to 1907.

Architect Duigeroff has readied drawing or how the face of the old movie house structure would look under the conversion into a fire house. The facade of the city hall, it is understood, will not be materially altered.

Inside, however, the work would entirely change the present pattern of the municipal building.

Mayor Maeras said that he and other city officials had this week learned of the possibility of securing what is termed good, used "second hand" lock-up cell bars and detention appearances, and are negotiating with a Missouri municipality that is disceding them.

a HEALTHY NEW YEAR to YOU and YOURS

SOCIETY

Sorority Meets At Vig Home

The annual holiday get-together of Theta Iota Chapter of Beta Sigma Phi sorority was held last night in the home of Miss Alice Vig, 504 Madison, where Miss Ruth Stoyanoff was hostess for the evening.

Mrs. Pat Talsig, president, conducted a brief business session and presented the cultural program on "Increasing Your Vocabulary."

"Secret pals" were identified and the "traveling basket," filled by Mrs. Delores Dorch, was awarded to Miss Vig. Miss Lora May Coffman received the hostess prize.

After a dessert, course, Christmas gifts were exchanged by the chapter members and the sponsor, Mrs. Lucille Harper, and plans were made for the next meeting Jan. 11 in the home of Mrs. Joyce Todd, 2541 Center street.

Erb-Kennedy Betrothal Told

Another of the many holiday engagement announcements this week is that of Miss Sierrabeth Erb, a daughter of Mr. and Mrs. Clifford M. Erb of Marissa, and Robert James Kennedy of this city, a son of Mr. and Mrs. Robert Kennedy Jr., 2224 Woodlawn avenue.

The bride-elect, a senior at Marissa Township high school, is employed part-time by her father at Erb's market in Marissa. Mr. Kennedy attended the local schools and is presently employed in the office of the Krey Packing Co., St. Louis. Wedding plans are incomplete.

VISITING DAUGHTER
Mr. and Mrs. Arthur Roeman left Wednesday for a week's visit in San Antonio, Tex., with their son-in-law and daughter, Mr. and Mrs. Edward Dunn and their daughters.

RETURN TO VIRGINIA
Warrant Officer Edward Lucas, with Mrs. Lucas and their family, left Wednesday for their post in Norfolk, Va., after a holiday visit with Mr. and Mrs. Stanley Lucas Jr. and Mr. and Mrs. Steve Sikora of Madison.

VISITING PARENTS
Mr. and Mrs. Robert Schlager and daughter, Kathy, of Marshall, Minn., are guests for the holidays of Mrs. Schlager's parents, Mr. and Mrs. Steve Sikora, 1543 Fifth street, Madison.

"SNOW PRINCESS" of 1960, Miss Donna Spiroff, who received her crown Tuesday evening from the retiring "princess," Miss Carolyn (Cookie) Sparks in the ceremony preceding the annual dance given by the Teen Town Council of the YMCA.

TEEN TOWN 'Snow Princess'

(Continued from Page 1)

Miss Linda Harper, escorted by Larry Dink, was attired in pale lavender satin with a pink sash cummerbund ending in a bow in the back falling in long streamers. The skirt had unpressed pleats and the bodice was sprinkled with sequins and pearls.

Miss Sparks, the retiring "Princess," had Jerry Wallace as her escort. Her gown was a full-length white formal. The pleated bodice accented with a white bow and three small bows were arranged on the front of the skirt which was highlighted with a train of metallic lace.

Miss Ruth Schneider, who also was a candidate for Snow Princess, was unable to attend the coronation ceremony due to illness.

MARRIED IN CIVIL CEREMONY
Miss Ervle Lee Brokaw, a daughter of Mr. and Mrs. Ervin Brokaw of Branson, Mo., and William Hughes, whose parents are Mr. and Mrs. Lyman Hughes, 2810 East 24th street, were married last night by Justice of the Peace Elvira Thurber.

The ceremony was performed at 8 o'clock, and witnesses were Mr. and Mrs. George Janco of Edwardsville.

Following the ceremony, a wedding dinner was served to the bride party, members of the family and a few friends at the home of the bride's brother and sister-in-law, Mr. and Mrs. Martin Brokaw on East 24th street.

The newlyweds will reside here. Mr. Hughes is associated with his parents in the television business.

WILL HOLD OPEN HOUSE
Rev. and Mrs. John DiGiacoimo, of the Mitchell Presbyterian Church, will hold their fourth annual open house for members of the congregation, other friends and neighbors Sunday from 4 to 9 p.m. at the manse, 133 Big Four place.

MISS PAMELA SCHMIDT, whose parents, Mr. and Mrs. Fred Schmidt, 4356 Breckenridge lane, are announcing her engagement to James Hicks, a son of Mrs. Virginia Hicks, 4080 Central lane, and the late Albert Hicks.

Pen Pals Meet After 15 Years Of Corresponding

Pen pals, an ocean apart for 15 years, met in person for the first time.

Miss Cris Dixon, of Nantwichoon for Canada, said "I was so thrilled to be able to finally meet my friend of long standing," and added that "I hope that I can continue to visit with Wilma (Mrs. Webb) in the future."

She said she was fascinated with the outdoor Christmas displays in a tour of Granite City, and viewed the scenes with wonderment.

"In England, they place little importance on exterior decorating at Christmas time," she said.

Members of Granite City. Gifts were exchanged by the group, and prizes at the games went to Mrs. Frank Aldridge, Mrs. Walter Gillen, Mrs. W. R. Thomas and Mrs. Fred Branding.

Others present were Mrs. Cecilia Perry, mother of the hostess, and two club members, Mrs. Joe Turner and Mrs. Ernest Corbin.

VTB Club Meets At Huff Home
Members of a local club, the V.T.B., were entertained at a Christmas party and luncheon Wednesday afternoon in the new home of Mrs. Raymond Huff at Dunlap Lake, Edwardsville, formerly of Granite City.

MISS CAROL KESTER, a daughter of Mr. and Mrs. Raymond Kester, 2806 N. Main road, is announcing her engagement to Roy Silva, a son of Mr. and Mrs. Walter Silva of Chicago, is announced by her parents. The wedding is planned for June.

Episcopal Women Hold Smorgasbord

The Episcopal Church Women of St. Bartholomew's, 22nd street and Grand avenue, enjoyed a Christmas party and smorgasbord at the Rose Bowl Tuesday evening.

Twenty were present, including two guests, Mrs. Anna Mac Hobart of Chicago, a former member, and Mrs. Orleana McDonald. "Secret pals" exchanged Christmas packages and drew new names for the coming season.

The latter part of the evening was devoted to games, and a number of prizes were awarded.

Delay In Ending School Trustee System Costly To Counties That Have It

Realization that the antiquated township school treasurer system is costing Madison county taxpayers more than \$30,000 a year makes it more imperative that action be taken to eliminate it in this section of the state.

Since 1953, when the system was abolished in 99 of the 102 Illinois counties, this county has paid probably over \$200,000 for the dubious distinction of maintaining an office that in many cases is doled out as a patronage job that is as short on work as it is long on pay. The continuation in this county was accomplished by setting the population limit at 180,000, which was exceeded in the 1950 census by only Madison, St. Clair and Cook. While some of the treasurer costs would still have to be met even under the proposed method, most of the expenditures probably could have been saved.

Against this fact, arguments that the political prize should be kept intact fail to show much relevance. Allegations of corruption about some school board-appointed treasurers certainly are cancelled out by abuses of the trustee-treasurer system in St. Clair county.

There is no effective check on school board power under the present procedure, and who is to say that, in theory, better treasurers are appointed by trustees than by school directors? Compared with the existing division of authority, which causes confusion and awkward procedures, clear lines of authority and responsibility seem especially appealing.

Progress is made by moving forward, not backward. If the Chicago area wishes to retain township school treasurers, this could be accomplished by setting the county population figure at 500,000 or 1,000,000 or some such figure. But in no case should the system be restored to more counties than now, as would happen under the present law due to the new census.

American Army Invaded — By Teenagers' Food Choices

"We have a very young Army," David Perham, Quartermaster Corps official, says in attempting to explain the results of a poll of 30,000 soldiers' food preferences.

Sounding much like a teenager's dream, the listing showed top ratings for milk, hot rolls and biscuits, strawberry shortcake, steak, ice cream, cream sundaes, fried chicken, roast turkey and French fried potatoes. Foods least liked were parsnips, cauliflower, asparagus, cabbage, squash and broccoli.

It has not been decided whether to revise the menu, since they are geared to nutritional values, but the poll has raised eyebrows. Beans have long been featured in the belief that they were favorites, but now it develops that they are favorites of mess sergeants, not the troops.

Service leaders are interested in the study, because "an army travels on its stomach" and they want the troops to be satisfied. But perhaps it will be best if the decision is left to dieticians, for we cannot visualize the Army traveling very far or fast on a daily fare of steak, turkey, chicken, biscuits, shortcake and ice cream.

College Students Next Target Of Red Agitators

Of interest to all students and parents is FBI Director J. Edgar Hoover's report that the Communists hope to repeat at other colleges their success of last May in spearheading mob demonstrations by young people against a Congressional committee.

From time to time there is justification for disagreeing with the actions of committees as well as agencies and individual public officials. But mob rule is not the answer, and the presence of Communists in such groups is a tipoff that this would be only an opening wedge toward discrediting and eventually destroying our governmental structure.

In dismissing riot charges against 62 arrested at the San Francisco city hall, Municipal Judge Albert A. Axelrod ruled that the students themselves did not have subversive motives, but added this comment: "They chose the wrong means to accomplish their purpose, and let themselves become victims of those who profit by creating unrest, riots and the type of conduct which is outlawed by the penal code." He said there was no question in his mind but that the students had been made use of by subversives, a technique followed successfully in other countries.

As said here last spring, the situation imposes a responsibility on parents, schools, colleges and churches — in fact, everyone involved in the education and indoctrination of each new generation. It is time for a little flag-waving, and we mean the one that is blue and white as well as red.

Among Resolutions For The New Year — Weight Control

"Resolved, that during 1961 I will do everything within my power to keep my weight at a reasonable level."

This may sound like a strange New Year's resolution, but it is being urged by the Illinois Heart Association, which points to the effect of weight upon health. Overweight people, particularly men, sacrifice long life, insurance actuarial studies have shown, and the degree of overweight proportionately shortens their lifetime, on the average.

Recommendations include eating varied and well-balanced meals, resisting food binges, avoiding under-meal and bedtime snacks, dieting only under medical supervision and maintaining a desirable weight through a recognition of its importance.

Since health is so vital, the resolution would be a good one to include in anyone's list. It would go a long way toward making 1961 a happy year.

All-America Awards Centering Attention On Citizen Action

The All-America City award captured by Granite City two years ago has set off quite a chain reaction. Alton and East St. Louis followed with successful applications, and the Granite City selection also prompted a 1960 entry by St. Petersburg Beach, Fla., currently one of the finalists.

Local residents who were jubilant over the award can also take joy in the other cities' endeavors, for the criterion — effective citizen action — is a worthy goal for all communities. Granite City can be proud that its selection as an All-America City has inspired greater attention to the responsibilities of citizenship.

Granite City PRESS-RECORD Thurs., Dec. 29, 1960 Page 9

Miss Diana Taylor Gets Lead Role in ISNU Play

Miss Diana Taylor, daughter of Mr. and Mrs. Ralph Taylor, 2156 Cleveland ave., has been selected to play the leading role in the play "Antigone," to be presented by Illinois State Normal University Feb. 15-18 at Normal.

Miss Taylor was chosen following tryouts. Rehearsals will begin in early January. The play, by Sophocles, is in the stage production.

School Bells To Sound Holiday End

Following the New Year's ringing out the old and in the new, other bells will sound the end of the Christmas holidays next Tuesday and Wednesday. These are the school bells which will summon the pupils back to classrooms.

For all elementary and secondary public school pupils of Granite City, Madison and Venice school days begin on Tuesday, which will have to be completely replaced as they are narrowed. This is because other concrete tends to crumble when it is cut back to desks next week.

MORE ABOUT

Hope To Extend

(Continued From Page 1)

services for them would offset the added taxes. This is correct, in that sewers and refuse collection might not be feasible for strictly rural areas, he said.

Reducing the stipulation to two sides instead of three would enable the city to proceed with annexation by action of the city council, property owners wishing to protest would have to re-course through the county court, he explained.

The request for modification of the state annexation law is to be submitted to legislators by the Illinois Municipal League, Macraes reported.

The Milan street and Staunton avenue area also affords a possible area for city expansion, but it would not open up additional land, he said.

If no action is taken by the state, other procedures may be followed, the club was told; these could include city acquisition of property adjacent to the area to be annexed.

Question Interstate Route Briefly discussing prospects of the city owned Chain of Rocks Bridge, on which bonds must be paid by the end of the 25-year financing period in 1964, Macraes said he considers that construction of a circumferential highway, which would become one as far as Mitchell.

As announced by the federal government and the states of Illinois and Missouri, the new federal route is to be carried over four-lane free bridges, to be built north of the Chain of Rocks Bridge.

However, the city officials would like to perpetuate their bridge operation by constructing a second two-lane toll bridge adjacent to the present river span. Under the city proposal, each would become one-way, with the new interstate highway routed over the two city structures.

Present federal and state officials turned down the city plan, but the Chain of Rocks Bridge has a turn in the middle and only 20-foot width for vehicles.

With new officials to be in charge, the mayor indicated there is hope for reversal of the decision. He said it is not known exactly how far the circumferential route planning has proceeded.

New Sewers, Sidewalks The mayor said several large projects currently are in various stages of completion.

For the storm drainage program, work on which was started this fall, the city will borrow \$500,000 from the bridge's reserve funds. This will be deducted from the amount to be transferred to the city when the bridge is paid for.

With the drainage project possibly costing \$2,500,000, the remainder will be borne by the federal government and East Side Levee and Sanitary district, Macraes said. Because only about 500 of 3500 Madison homes have drainage problems, a bond issue election probably "would not pass," he commented.

The city expects to encounter more costs than originally anticipated in widening of Madison avenue in 1961, since probably three-fourths of the sidewalks will have to be completely replaced as they are narrowed. This is because other concrete tends to crumble when it is cut back to desks next week.

Bridge Funds For City Hall The city also will seek bridge reserve funds for remodeling of the city hall and nearby Firemen's Hall, to be decided by the city by the Madison fire company, the mayor reported.

Eventual plans call for construction of a courtroom on the top floor of the city hall. It would be "splendid" for use as a city or circuit court, with a court area about 35x75 feet in

Steer Roams GC And Madison—Disappears

A white-faced hereford steer which roamed the Tri-City Park and north section of Madison late yesterday afternoon disappeared in the darkness and its whereabouts was unknown today.

Granite City police were summoned about 4 p.m. yesterday when motorists and residents of the Tri-City Park area reported seeing the animal roam alleys and head for the vacant tract behind the old ice plant at 16th street and Madison avenue.

Three police cars went to the scene and were attempting to maneuver a capture when the steer slipped over the city line into Madison and disappeared.

Efforts to determine ownership were futile. It is believed to have entered the city along railroad tracks which crossed Edwardsville road near the Reilly Tar & Chemical Corp., a Tarpoff Packing Co. plant. A spokesman for the packing company said it did not belong to the firm.

Stolen Car Hits Building In Madison, 2 Men Flee

A stolen car went out of control at 2:30 a.m. today and struck a small office building at Washington and Madison avenues. Witnesses saw two men jump out and run from the scene.

The station wagon was traced by Madison police to Etkin J. Field, Peoria, who is staying at a Columbia, Ill. motel while working in this area. He related that he parked the auto at the motel upon returning at 11:30 p.m. Wednesday, and discovered it to be missing this morning. The building and the front of the car were damaged.

Hit-Run Accident On 20th Street

A hit-run accident occurring on 20th street near Iowa street was reported to Granite City police about 9:30 p.m. A parked car was damaged about the left side and police were given identification of the hit-run motorist.

They advised the operator of the parked car, Jesse Drischel, 68, of 2228 Warren avenue, that it would be up to him or the owner of the auto to file a complaint. The parked car, a 1957 Buick, is owned by the William Houser Automotive Co., 18th street and Madison avenue.

size on the eastern side of the highway and judicial, defense and plaintiff chambers on the west, he said.

Macraes said construction of a new city hall has been discussed, but that the remodeling will meet the city's needs for at least 50 years as well as costing less than half as much as a new building. He estimated that a city hall might cost \$400,000 to \$500,000.

Warehouse Tax Problem The mayor pointed out efforts of the Tri-City Regional Port District and said negotiations are underway to alleviate any tax drain on the Madison school district and other taxing bodies from the acquisition of Madison warehouse buildings by a non-taxpaying public agency.

The mayor said the problem for a four- or five-year period, the taxable personal property within such buildings by then might offset the loss in real estate assessment, he explained.

The mayor said the port district and Bi-State Development Agency appear to be working in harmony at present, but he expects that their objectives eventually will conflict, in which case the port district would merit most support because it was organized to meet the needs of this specific area. He recalled past litigation in which local city officials opposed the agency's McKelvey Bridge purchase plan.

Macraes said a proposal for a second Macrae bank remains in definite, as far as he knows, although an economic survey may have been scheduled.

Real Estate Exchange

By Sam W. Wolf, President

Probably the best thing that can be said for 1960 is that it is almost over. The past year has been a nightmare of disappointment for most forecasters who predicted a business surge, a near boom proportions. Undoubtedly we allowed a good portion of our optimism for the year to be crowded into 1960 itself.

Even though the gross national product will probably top \$500 billion it has been a year of steadily declining activity with a year end recession somewhere. The decline in new home construction, particularly in the Granite City area, has been very disappointing; however, not entirely unexpected. A combination of factors including higher taxes, increased construction costs, continued high interest mortgage money, and employment uncertainty teamed up to slow the local home building industry to an almost standstill pace.

Fortunately there were a few bright spots during the year with completion of the new Steel-First Granite City National Bank Building, the ultra modern fire station, a fine addition to St. Elizabeth Hospital, completion of several schools and modernization of others, an addition to the Shopping Center, plus other smaller projects which kept overall construction at an acceptable level despite the lag in home construction.

Home Development
All of the above projects, however, are now behind us and we must look ahead to 1961 and try to determine what it will bring. Mortgage money will be easier to get and not quite as expensive as during the past year. Mid-year should find the counts down somewhat on FHA loans, with VA mortgages still in the main being processed by the Veterans Administration on a direct basis. Rates on conventional mortgages will decrease slightly with some prime loans being made at 5% and 5 1/2%. Building and Loan Associations will find it difficult, however, to retreat much from the prevailing 6% rate due to present dividend commitments.

New construction should show a definite improvement over 1960 but still nothing approaching a level which can be termed boom. More emphasis in the coming months will be given to homes of frame construction containing less of the brick and masonry items. This is a departure from the past several years in which homes of brick construction have been predominant.

More initiative and imagination will need to be given in new home planning if present property owners are to be persuaded to buy the bigger luxury homes of the future.

Granite City Trust & Savings Bank

By E. A. Karandjoff, President

The year just passed has been a very complex and confusing one, particularly for those of us who made forecasts last year and who are asked to give our opinion as to the future.

In the last few weeks, we here at the Granite City Trust & Savings Bank have celebrated our 50th anniversary and have indicated our faith in the future by our expansion of our facilities to care for the growth of customers that we have enjoyed. We continue to have confidence in the future of Granite City and in the downtown area.

We here in Granite City continue to be blessed by our many advantages, both economic and spiritual.

Just a short time ago, the Tri-City Regional Board announced marvelous plans for the future development of river facilities which promise industrial growth such as we have never known before.

University Recreation Site
Likewise, we have been blessed with the reality of a university in our immediate area with promise of a recreational site in the Horseshoe Lake location that will serve several counties.

Turning to the economic picture, there have been problems on a national basis. Chief among these is perhaps the ever-increasing labor shortage, an advantage in that it creates a greater market for our goods and products. But, at the same time, it creates the highest employment record that we have ever known, with the anomaly of a high unemployment figure.

Likewise, it is not easy to gloss over the forecasts of many economists for a general downturn in business activity over the coming year. There are repeated indications of a poor appliance sales year and a prediction of decreased building activities.

Another of the problems confronting us nationally is the outward flow of our gold supply, created in large part by our spending on foreign aid and an ever-increasing unfavorable balance of trade.

On the other hand, there are many indications, many more in fact than can be enumerated here, that during the latter part of 1961 our progress will continue again.

There are some who believe in

homes in the \$20,000 and over price range. Progress along these lines would release more existing homes ranging from \$8000 to \$15,000 for purchase by new family formations and elderly couples.

New subdivisions will appear but on a limited basis as land acquisition and effects of the zoning ordinance double up to create an excessive overall development cost.

First, the passage of the Southern Illinois University bond issue in the November election assured a definite financial growth of the community to the North and East.

Second, recently announced plans of the Tri-City Port Authority should most certainly open up an industrial area on the western boundary second to none. The Tri-City area has a right to expect a definite growth of the future.

Development of such magnitude has not been previously announced plans for expansion of local industry, continuing activity in the Horseshoe Lake project, federal highway construction, and possible future contribution to a more healthy economic and social mode in the country. Lead and lead alloy products are shipped from this area.

We would be the first to agree that the future is bright for the Tri-City area.

Included in the products produced are type metal for the printing and graphic arts industry, plasters lead goods utilized in substantial modern in the construction industry, solders of many descriptions for can making and for the automotive and electrical industries, sheet lead and pipe utilized in the lining of tanks to resist acids in the chemical industry, antimonial and calcium leads for storage batteries, and a host of other products in various forms utilized in the shielding of nuclear reactors, and many other products to mention.

The Steel Package Division

Plant has in recent years installed additional high speed equipment for the production of steel shipping containers of the highest quality and attractive appearance in substantial quantities by the petroleum, paint, chemical and many other industries.

New Equipment, Products
In the operation of these two plants in the Tri-City area, representing a small part of the National Lead Company's overall diversified and ever-expanding operations, it has been the policy to continually replace and install new equipment in order to keep pace with increasing costs, and to maintain a competitive position and make possible increased sales of all of the products produced.

It has also been past practice wherever possible to add new products to those already produced to achieve increased volume and additional continuous employment.

In reviewing the year 1960, the volume of business enjoyed by

The Granite City Engineer Depot will greet 1961 with full military strength and with the healthiest backlog of work since the Korean War.

We expect to continue to improve the readiness of the military units stationed here. These units must be prepared for movement on short notice to suppress international disorders. Increased emphasis will be placed on physical conditioning and training.

We welcome the large backlog of work resulting from the assignment of several new missions by the Department of the Army. These missions include a part of the workload formerly carried by the Engineer Depot in Marion, Ohio, which is being reduced to caretaker status. We plan to accomplish this added work without adding to the workload. This will be done by transferring overworked workers to direct work.

Surplus Sales

One of the new missions is the selling of surplus property generated by military installations in Eastern Missouri and Southern Illinois. This will be accomplished by the Southern Illinois University bond issue in the November election.

First, the passage of the Southern Illinois University bond issue in the November election assured a definite financial growth of the community to the North and East.

Second, recently announced plans of the Tri-City Port Authority should most certainly open up an industrial area on the western boundary second to none. The Tri-City area has a right to expect a definite growth of the future.

Development of such magnitude has not been previously announced plans for expansion of local industry, continuing activity in the Horseshoe Lake project, federal highway construction, and possible future contribution to a more healthy economic and social mode in the country. The Steel Package Division

Plant has in recent years installed additional high speed equipment for the production of steel shipping containers of the highest quality and attractive appearance in substantial quantities by the petroleum, paint, chemical and many other industries.

New Equipment, Products
In the operation of these two plants in the Tri-City area, representing a small part of the National Lead Company's overall diversified and ever-expanding operations, it has been the policy to continually replace and install new equipment in order to keep pace with increasing costs, and to maintain a competitive position and make possible increased sales of all of the products produced.

It has also been past practice wherever possible to add new products to those already produced to achieve increased volume and additional continuous employment.

In reviewing the year 1960, the volume of business enjoyed by

the two plants should approximate that of 1959. During the past year, while business has been fairly consistent, there have been many problems due to rising price competition. It is our feeling that the area has enjoyed another good year with respect to employment and with little or no serious labor difficulties.

The coming year, will, no doubt, present a challenge to improve costs and to increase production. If it is possible to accomplish these factors, along with continued progress and expansion in the last six months, 1961 should be a good year and with a particular future in the last six months.

In our opinion the Tri-City area has many of the natural assets for expansion, such as excellent water, rail and motor transportation facilities. It is a favorable position with ample desirable industrial property conveniently located to many industrial and raw material producers as well as good labor conditions.

As 1961 begins, we are confident that the resources of the Tri-Cities and the nation in progress continuing and ever-increasing opportunities for economic improvement and development. The Tri-City area, because of its efficient manpower, well-managed industries, proximity to its markets, and wonderful transportation facilities, will continue to show a growth in industries, working force and general prosperity.

Perhaps the most important of many factors that influence our forecasting the future of the Tri-City area for industrial development is the responsible estimates of the area's future published during the past twenty years have fallen far short of the actual growth obtained. For example, made in 1956 by an outstanding firm of professional forecasters concluded that Granite City would have 10,000 people in 1960. The actual census of 1960 showed that population within the city limits of Granite City now exceeds 40,000 as compared with 20,000 for 1950. This substantial population growth has caused the increasing development of Granite City north of Namekoi road, and the fine residential districts developing in this area have become populated in large measure by people working in areas other than Granite City, primarily St. Louis. It is a source of pride to all Granite Cityans to have our city known as a good place to live.

There are many reasons for being confident our business will continue increasing during 1961. Announced plans for the building of additional retail stores, new well built stores built during 1960, point to the development of the Namekoi road area. This area, in addition to our downtown business area, it is expected that during 1961 will have a number of merchants operating fine quality stores will be ready to serve the entire Tri-City area.

We are fortunate to have so many sincere civic and business leaders in this area who are working cooperatively for the advancement of the area. The Chamber of Commerce, the Associated Retailers, and the response to the United Fruit Drive are examples of the success of the fine work being done.

There are many concrete tasks to be accomplished, and they will be completed by all of us working together through 1961 and into the future.

Granite City PRESS-RECORD
Thurs., Dec. 29, 1960 Page 11

BUSINESS REVIEW AND FORECAST

A Look Back and a Look Ahead

Granite City Engineer Depot

By Col. Jack C. Jeffrey, Commanding Officer

Our own Depot, all in Illinois. Also, we have the new mission of repairing high-powered refrigeration equipment which must provide temperatures as low as 420 degrees below zero Fahrenheit. Our neighbors will become aware of this equipment when we put it on 48-hour test because, under certain conditions, it screams like a banshee. Another new mission is the assembly of Army aircraft fuel and equipment sets.

Only Engineer Depot In U. S.
With the closing of the Engineer Depot in Marion, Granite City will have the only Engineer Depot in the United States. The closing out of the Marion Depot will add the states of Kentucky and Ohio to our area of responsibility; support; this will increase our area of responsibility to 15 states. Also, we estimate that about 30 families will move from Marion to the Granite City area during the last half of 1961.

The new year will bring us more Engineer equipment for overhaul. During 1960 our equipment backlog fell to four months, but we now have a six-month backlog. This is an indication that it will stabilize between eight and eight months. This is an improvement over the permit better scheduling and thus lower costs.

We believe that 1961 will be slightly less hectic than 1960 insofar as the handling of supplies in the depot is concerned. The fact that the one-time workload due to transfer of supplies from the St. Louis Ordnance Plant, Missouri, and the Deatur, Signal Depot, Scott Air Force Base

in 1961, the Engineer Pack-

aging Technical Office plans to pre-arrange improved packaging materials and techniques which will reduce the present high cost of preparing material for shipment. For example, for every ton of Engineer supplies shipped, it costs about \$15 to preserve, pack, crate and mark. Even a small reduction would yield substantial savings at Granite City Engineer Depot and at the five General Depots which also ship Engineer supplies.

Missile Equipment
We will continue to maintain the Engineer equipment for the Nike Batteries, which protect the St. Louis area. Our 555d Engineer Detachment of soldiers is alert around the clock to insure that missile equipment is in perfect operating condition.

Our 50th Ordnance Detachment will continue to collect unexploded bombs, shells and other hazardous material in the area. Although not generally known, this organization works closely with civil law enforcement agencies and makes about 100 calls a year to search schools, aircraft, scrap shipments, etc., for "bombs" and other dangerous items which could do grievous harm to the community.

Our employees have emphasized economy and safety during the past year, and we tend to continue a long-range emphasis in 1961. As a result of this emphasis in 1960, our employees have, for example, reduced long-distance phone calls by 50%, reduced cost of receiving supplies by 35%, reduced minor injuries by 35% and reduced lost time due to accidents by 41%.

National Lead Co.

By Lawrence F. Gerst, Gen. Superintendent

Plant has in recent years installed additional high speed equipment for the production of steel shipping containers of the highest quality and attractive appearance in substantial quantities by the petroleum, paint, chemical and many other industries.

New Equipment, Products
In the operation of these two plants in the Tri-City area, representing a small part of the National Lead Company's overall diversified and ever-expanding operations, it has been the policy to continually replace and install new equipment in order to keep pace with increasing costs, and to maintain a competitive position and make possible increased sales of all of the products produced.

Granite City PRESS-RECORD
Thurs., Dec. 29, 1960 Page 11

Illinois Power Co.

By E. G. Schmitt, Service Area Manager

Two major factors are expected to bring record-breaking usage of electricity and natural gas this year (1961) in the Granite City Service Area.

First, present Illinois Power customers probably will continue to increase their use of both services. Average residential customers, for example, are expected to use about 5,300 kilowatt hours of electricity in 1961. Gas usage is expected to reach 1,700 therms among those customers who use gas for heating and other residential uses. Gas customers who do not heat with gas are expected to use about 285 therms for residential uses only.

Residential use of electricity and gas will increase between 6 and 15 per cent over the 1960 averages.

Secondly, we will be connecting about 1000 new electric and 2800 gas customers in the Granite City Area in 1961. Of this 2800 new gas customers, approximately 2200 are in communities where gas distribution facilities are being installed.

This increased use by customers is based on past trends and results from the purchase of additional lighting and appliances. Residents of the area are expected to seek the greater convenience, less effort and new forms of entertainment provided by the use of our services. The additional use of electricity and gas is available at lower rates, since our unit cost decreases as the customer increases his use.

To make these services available in larger quantities to our existing customers and to new customers, Illinois Power will install about 18 miles of power lines and 145 miles of natural gas mains in 1961. This entails the expenditure of a considerable amount of money to provide service to these new customers.

The completion of our Freeburg underground storage field, 6.4 billion cubic feet of natural gas, this year to natural gas users. This type of field permits us to store gas demands are low and then pipe it to homes on the coldest winter days.

Capacity of the Freeburg underground storage field is 6.4 billion cubic feet of natural gas. Up to 35 million cubic feet - enough to meet the needs of 25,000 residential customers - can be withdrawn on peak winter days.

The development work at another underground storage field near Tilden also is expected to further increase the amount of gas in Illinois Power customers.

As a result of these developments, we are confident that our business will continue increasing during 1961.

Southern Illinois Builders

By H. L. Gangnath, Executive Director

The close of 1960 shows that unemployment is at a record high for the past several years. During the past year, many of the unions with whom we have negotiated contracts, have negotiated with an apparent desire to make themselves more competitive with competing unions in the area.

It is hoped that 1961 will find all unions accepting their responsibilities to help make the economy more competitive with the competitive wages and productivity a reality.

American National Bank

By Harold Karandjoff, President

This trend to continue, such as the Horseshoe Lake development, and the successful passing of the bond issue which will result in the immediate development of a nearby university campus. These have caused a very real and present interest in the community, and as plans are turned to accomplished fact, this community will become an even more pleasant living area.

Varied Transportation
The geographic location of the Tri-Cities, with its excellent transportation facilities by river, railroad, airline and highway that are the finest available in the United States. The large expanse of land available at a fair price for industrial development is far superior to that available anywhere in the Greater St. Louis area.

The Tri-City Port Authority, organized late in 1958, has prepared a plan based upon the requests of industries that will do much for the development of our community. It is expected that during 1961 we will have a number of merchants operating fine quality stores will be ready to serve the entire Tri-City area.

We are fortunate to have so many sincere civic and business leaders in this area who are working cooperatively for the advancement of the area. The Chamber of Commerce, the Associated Retailers, and the response to the United Fruit Drive are examples of the success of the fine work being done.

There are many concrete tasks to be accomplished, and they will be completed by all of us working together through 1961 and into the future.

Granite City PRESS-RECORD
Thurs., Dec. 29, 1960 Page 11

Tri-City Regional Port District

By Carl A. Rant, Chairman

I feel that the Tri-City Port Authority will help this area develop a diversification of industry that before was not possible without the proper legislation, that was created under this act.

The industrial potential of the Tri-Cities Port Area is unlimited. It will take time and lots of hard work by many to help in its development, but I am sure that it will come about in the near future.

This area is very fortunate in being located in the very center of our nation with adequate electric power, fuel, water facilities, both skilled and unskilled manpower, with unlimited industrial sites which require very little preparation for use. We have rail, highway and river transportation second to none in the nation.

In trying to look into the future for 1961, I feel that it is reasonable to predict that the activities of the Port District will be confined along the following lines:

Naturally, the major interest and effort of the Port District and Port Board will be directed toward insuring that the port develops along the lines previously announced and to insure that nothing stops the orderly development of the project. However, along with the port development, there are a number of major areas of interest to the Port District that should produce an overall benefit to Madison county and the Illinois Metropolitan Area.

Presently, the Port District is assisting the Chambers of Commerce in finalizing their plans to secure the immediate establishment of helicopter services to the benefit of the companies who have to send representatives to the major Granite City industries.

The next area of heavy interest to the port is to commence immediate planning sessions with the responsible officials of Madison, Vandalia and Mitchell areas to establish the best avenues to develop the potential in these areas in relation with the port project. There are a number of capabilities possible, but it is felt that future development in these areas should be worked out by the port.

East St. Louis & Interurban Water Co.

By E. Clinton Smith, Vice-President and Manager

As it has for the past seventy-five years, the East St. Louis and Interurban Water Company continues to express its faith in the future growth of the area. It serves through a continuing long range program of expansion and improvements to its water system.

As part of this long range program, plans for the year 1961 call for the expenditure of some \$1½ million for capital improvements to the system.

Among the major items of this program will be the completion of four additional filtering units, construction of which was commenced early in 1960. These units will increase the filtering capacity of the East St. Louis purification plant by some ten million gallons per day, and it is contemplated that their addition to the plant will permit us to meet estimated peak service demands for many years to come without overloading our facilities.

It is hoped also to complete in 1961 the relocation of large water mains in our distribution system made necessary by the construction of the expressway in downtown East St. Louis. Other items of expenditures include improved chemical storage and chemical feed equipment and major additions to our facilities at our distribution center in Edgemoor.

To these additions will be added, of course, the routine improvements to our water supply system, installation of additional water services and meters and considerable important maintenance of existing service areas.

In 1960 the company continued its policy to move into larger quarters for its commercial department and the move to new quarters at 4700 State Street was made in January. The new commercial center is not only established and a considerable improvement in commercial operations, but it also achieves through this move, construction is also under way for a new commercial center to be located on West "A" Street adjacent to the post office. This is hoped that these facilities will

be available for the company's use by the end of 1960.

Long-Range Planning
While the much-heralded boom of the 1960s did not materialize in the current year, this company's planning must of necessity be on a long-range basis. The facilities which we must design and construct to keep pace with the growth in the area we serve cannot be completed in short periods of time.

Under the circumstances, therefore, we plan for periods from five to ten and even fifteen years ahead in our long-range thinking. In spite, therefore, of the slight recession which was experienced in the latter part of 1960, past experience has shown that the recovery point from these recessions invariably equals or exceeds the target point which was established prior to the recession. We have no reason to believe that the present economic recession will be any exception to past experience and therefore, continuing our long-range planning on the same basis which we had projected prior to the recession.

We look forward to the continued growth and expansion of the economy of the Tri-City Port Area with the same confidence and faith which we have expressed over the years. We are confident that through continuing improvement and expansion of our water system, we are confident that our faith in the continued growth of our service area will be justified, and all of our future thinking is geared along these lines.

During the past year, the general slackening in the nation's economy has made itself felt in the Tri-City area. We have been fortunate in having our basic steel industry able to hold its production schedules at a rate substantially higher than the national average. This, coupled with the fact that we did not suffer the paralyzing effect locally of the 1959 steel strike, has lessened the impact of the current recession.

Nineteen-sixty saw the completion of the Granite City Steel Company-First Granite City National Bank office building and the 100-bed addition to the St. Elizabeth Hospital.

The decision of Royal Crown Cola Company to locate a new plant in Granite City, announcement by the Granite City Trust & Savings Bank of plans for the construction of a new office building, and the major renovation of Venies-Verne Hotel are further highlights in our year.

Various factors caused a slowdown in home building activity in the Tri-City area this year, with no particular indication of any trend for 1961. The coming year should see the start of work on the re-location of U. S. Highway 67 to bypass the downtown area of Granite City. This should be of material help in the city's traffic problem.

We should also see some concrete evidence of the plans of the newly-created Tri-City Port Authority for the development of our harbor area.

Any further increase in local business is dependent on the national economy. If the new administration is successful in the handling of the many problems it will face and in furthering the cause of world peace, we will have no cause for worry.

Mapping has been completed for the Shelbyville Dam Project, at Shelbyville, Ill. This project, also on the Kaskaskia River, will cost about \$25,000,000. Two more years of planning remain to be accomplished before construction can be initiated.

Bulk Reinvestment
In connection with our continuing responsibility to maintain a navigable channel on the Mississippi River between the Ohio and Missouri Rivers, over \$1,000,000 will be spent on the construction of regulatory works consisting of pile dikes and bank revetment which will assist the river in maintaining its channel depth and reducing flood risks.

Among projects in the study stage is that of the Kaskaskia River to determine if the lower 50 miles of that stream should be canalized. There is considerable bulk material in the Kaskaskia River Valley which could be moved and used for other purposes. A report on this study is essentially complete.

Still farther down the Mississippi, a study of the canalization of the Jefferson-Verde-Funk Creek is going on. The general idea is that the Big Muddy might be canalized from its mouth up to Pinckneyville-Hill.

If this canalization takes place, and the canalization of the Kaskaskia River, more projects from this area may move via the Mississippi River to either New Orleans, or to Chicago and other ports.

Studies will continue into 1961 to determine the need for inter-drainage investigations, all in the state of Illinois. The results of the studies reported on the Meramec River was requested by the House of Representatives in April, 1960. The new study will be completed by the end of 1961.

The Corps of Engineers, of which our company is a proud to be associated with civil works in this area which affect so many people.

Second is the continued high level of production in the so-called built-in stabilizers which have tended to maintain income and purchasing power in recent recessionary periods, such as unemployment insurance and pension benefits. In this previous year, these stabilizers have helped substantially in maintaining full demand and providing an anchor against cumulative spirals.

As far as the outlook for the Quad-Cities area is concerned, Quad-Cities area is a very good example of a community that is proud to be associated with civil works in this area which affect so many people.

On the whole, then, the outlook for the national economy is not too gloomy, and the reasons for expecting the downturn to be mild appear compelling. Foremost among these reasons are the following: (1) The adjustment so far. Adjustments in the various industries are not being made in a hasty manner, but rather in a steady, gradual way.

On the whole, then, the outlook for the national economy is not too gloomy, and the reasons for expecting the downturn to be mild appear compelling. Southwestern Bell Telephone Co.

By Fred B. Hunt, Vice-President and General Manager

"More telephones for more people who'll do more talking."

I think that statement outlines briefly what we in the telephone industry see for the future. The Quad-Cities area, not only in 1961, but also in the years ahead.

We're getting ready right now to provide necessary additional telephone facilities to meet an increasing demand for the best possible service.

And we're hopeful that our earnings can be brought up to the levels of other progressive, well-managed companies so we can attract the capital we'll need to go ahead with all the projects we have in mind in the most economical fashion.

Distance Dialing
Nineteen-sixty-one will be a banner telephone year in the Quad-Cities area with the advent of Direct Distance dialing in the year, some 16,000 Quad-Cities subscribers will greet the new DDD service which will enable them to dial more than 50 million telephones throughout the United States and Canada directly from their own homes or offices.

The Quad-Cities DDD program has been many years in planning and development. With it, station-to-station calls are automatically timed and billed and customers will be able to dial a number in Denver as easily as a local call. Cost of the Quad-Cities DDD program is \$145,000.

Here's how Direct Distance Dialing works. For DDD, the United States is divided into dialing areas. Each area is identified by a three-digit area code number consisting of three figures. For example: the area code for Chicago and vicinity is 312.

To reach a telephone in one of these areas, all the caller needs to do is first dial the area code number, and then the telephone number in the distant city. If he is calling Hfmark 4-9100 in Chicago, he dials 312 (area code) and then 4-9100. The connection is made automatically in a matter of seconds.

There will be no change in charges for these calls. Charges for long distance and long distance calls will stay the same.

Local Expansions
In addition to Direct Distance Dialing, we're planning other expansion and improvement programs for the Quad-Cities area.

The telephone central office will receive 2,450 additional lines in 1961. This will provide for growth. Cost of this project is more than \$100,000.

The past year has been an extraordinarily busy one at the Madison Plant of the Dow Metal Products Company, a division of the Dow Chemical Company, with both product volume and employment going up. Our emphasis upon aluminum has resulted in more than doubling aluminum extrusion shipments during the year.

An intensive process and engineering development program has been carried on during the year and is continuing. The goal program is the adaptation of our facilities for the mass production of a broad range of semi-fabricated aluminum, magnesium and other metal mill products.

Improvements being made will enable us to furnish increasing amounts of rolled products next year. At present, the plant is well equipped to produce aluminum extrusions and is in a particularly advantageous position in large aluminum extruded sections, as only three other companies in American can produce quantities of over 5,500-ton and 13,200-ton presses.

The new emphasis on aluminum has long constituted a major part of our program, the product for which this plant is particularly known. We are confident that our magnesium market continues as before. No military usage of magnesium is holding its own with luggage, material-handling equipment, and other uses. In military applications, to which magnesium has long constituted a major part of our program, magnesium-thorium alloys continue to have wide acceptance for missiles.

On a much smaller scale, work on a new zinc alloy, Hydro-Metal, and it was found that the Madison plant can roll this metal successfully. We hope the future of this metal will contribute to the volume of metal processed here.

Safety Record
Despite the increased work volume at the Madison plant, we have maintained a remarkably safe record during the year. Although we never

attain the perfection we seek, our record for the current year has been outstanding. On October 26 we had operated 365 days without a lost time injury. We are proud of this record.

It is often said, "The past is prologue to the future." The work done during the past year forms a basis for what we will continue during 1961. We expect to play a much greater role in the aluminum market.

Although we will hardly exceed the Big-3 in aluminum, we hope that our success in the magnesium market will add substantially to our volume, thereby creating new jobs and adding greatly to our general security and prosperity, and to the economy of the community.

There are several factors of real encouragement to industry in this area. The absence of any serious work stoppages during the year in the community at large, the success of the United Fund campaign, the progress of the Southwestern Campus of Southern Illinois University, and the improvements underway in our highway system—all valid reasons to be reasonable cause for optimism in our community for 1961.

Tri-Cities Area Chamber of Commerce

By Paul H. Lichtenberger, President

During the past year, the general slackening in the nation's economy has made itself felt in the Tri-City area. We have been fortunate in having our basic steel industry able to hold its production schedules at a rate substantially higher than the national average. This, coupled with the fact that we did not suffer the paralyzing effect locally of the 1959 steel strike, has lessened the impact of the current recession.

Nineteen-sixty saw the completion of the Granite City Steel Company-First Granite City National Bank office building and the 100-bed addition to the St. Elizabeth Hospital.

The decision of Royal Crown Cola Company to locate a new plant in Granite City, announcement by the Granite City Trust & Savings Bank of plans for the construction of a new office building, and the major renovation of Venies-Verne Hotel are further highlights in our year.

Various factors caused a slowdown in home building activity in the Tri-City area this year, with no particular indication of any trend for 1961. The coming year should see the start of work on the re-location of U. S. Highway 67 to bypass the downtown area of Granite City. This should be of material help in the city's traffic problem.

We should also see some concrete evidence of the plans of the newly-created Tri-City Port Authority for the development of our harbor area.

Any further increase in local business is dependent on the national economy. If the new administration is successful in the handling of the many problems it will face and in furthering the cause of world peace, we will have no cause for worry.

Mapping has been completed for the Shelbyville Dam Project, at Shelbyville, Ill. This project, also on the Kaskaskia River, will cost about \$25,000,000. Two more years of planning remain to be accomplished before construction can be initiated.

Bulk Reinvestment
In connection with our continuing responsibility to maintain a navigable channel on the Mississippi River between the Ohio and Missouri Rivers, over \$1,000,000 will be spent on the construction of regulatory works consisting of pile dikes and bank revetment which will assist the river in maintaining its channel depth and reducing flood risks.

If this canalization takes place, and the canalization of the Kaskaskia River, more projects from this area may move via the Mississippi River to either New Orleans, or to Chicago and other ports.

Studies will continue into 1961 to determine the need for inter-drainage investigations, all in the state of Illinois. The results of the studies reported on the Meramec River was requested by the House of Representatives in April, 1960. The new study will be completed by the end of 1961.

The Corps of Engineers, of which our company is a proud to be associated with civil works in this area which affect so many people.

St. Louis District Corps of Engineers

By Col. Alfred J. D'Arenzo, District Engineer

It has been a year now since the last forecast from our office here in St. Louis. Now we are pleased to furnish our forecast for 1961.

Probably the tonnage that passes through the locks at Granite City is of special interest, as well as a good local business barometer. If the trend is any indication, we can look forward to a better year for '61. It is estimated that the tonnage for the next year of record will exceed the current record 29,000,000-ton mark, for an average of nearly 2,500,000 tons per month.

The expanded facilities of the Granite City dock will contribute a substantial part of the expected increase. It is estimated that about 10,000 persons visit Locks 27 every year, so Locks 27 and the Granite City area—are continuing as high interest points.

The Chain of Rocks low-water dam was authorized by the River and Harbor Act approved by Congress on July 3, 1958, and construction got started in 1959. The dam will be located a short distance downstream of Chain of Rocks Highway Bridge.

Adequate Water Depth
The design of the Chain of Rocks Dam is unique so far as known as a series of dam basins and a free flow. It had many interesting facets in the design preparation, and undoubtedly will have an equal number of interesting phases during construction. When completed in the fall of 1962, it will provide adequate depths over the lower sill at the Alton lock which has, for several years, been deficient during low-water periods.

Construction work will continue through 1961 and most of 1962. The total cost of the dam and appurtenances is about 4.6 million dollars.

As I tell about some of our work and the money that is being spent, it should be remembered that for every dollar spent, we are getting back dividends much greater than the cost of the project.

A contract has recently been awarded to the construction of a new building, overlooking building, and access roads to cost approximately \$400,000. The public will be invited to inspect when it is completed late in 1961.

Work on one of the saddle dams and a new pumping station was initiated in the fall of 1960, with completion scheduled for the fall of 1961. This contract is for approximately \$400,000. Design of the second saddle dam and of construction of a new pumping station is proceeding and will be advertised next spring.

Bi-State Development Agency

By Preston Estep, Chairman

Perhaps a good way to begin a forecast for the coming year is to take a good look at what has happened during the past year. It is well remembered that at the close of 1959 there were many rosy forecasts of business in the "Soaring Sixties." In anticipation of a strong catch-up period after the steel strike, and of crossing the threshold into this decade of accelerated growth, sales budgets, production schedules and earnings goals were all set at high levels.

The disparity between production and consumption, revealed as time went on in declining order, backlogs and accumulated inventories, imposed the necessity for adjustments all under way.

In retrospect, what has happened in the past year period has been a gradual, step-by-step satisfaction of demand at all levels, and a steady increase in production for soft goods was met; then the shortage of consumer durable goods, automobiles, radios, televisions sets, etc.) was remedied; and finally, capital goods or new plant and equipment were built up to excessive proportions.

As a result, the loss of production during the steel strike, for example, was made up in a relatively short period of time. In the several months of capacity operations that had been expected, in addition, the easy price increases of 1959 prices began to build up against the competition.

In this changed atmosphere, with industrial prices holding steady and suppliers endowed with quick delivery, businesses across the nation returned from buying prior to the strike and requirements and turned to economizing on inventories. This pattern prevailed all the way through the economy down to the consumer level, and resulted in a low level of orders and production which contributed to the economic slowdown in 1960.

Against this background, what is the picture for 1961? In the first place, the inventory cut-back begins to look as though it had gone too far.

Consumption Tops Production
In steel, for example, inventories are back to a two-month supply as against a 4.7 months supply in July 1959. In other words, there is one normal three-month supply. With the steel operating rate at 60% of capacity, it is estimated that actual consumption is at a level equal to 65% of capacity.

In other important areas of the economy, all is not gloom. E. W. Dodge Corp. reports that construction contracts awarded in October set a record for the month. Substantial gains in contracting and building activity are being reported in October to new high levels despite the fact that residential building contracts continue to trail.

Dr. George Cline Smith, vice-president and chief economist for Dodge, said that October's contracts indicate high levels of construction activity for many months to come, and this activity will help to insure that the current business dip will be quite mild and of short duration since construction is the nation's largest industry, accounting for 13.5% of the GNP.

The automobile industry is expected to continue its recovery in 1961, with perhaps 1,500,000 of these being completed in certain quarters. The industry is expected to meet its goals by normal standards.

Capital goods spending in 1961 is expected to be \$2.8 billion, according to a survey taken in October will be down about 3% from the expected level of \$2.9 billion. These changes in spending plans are certainly mild compared to the sharp drop in 1959. A McGraw-Hill Survey of that industry indicated that manufacturers are back to a level of production indicated by 1959.

Southwestern Bell Telephone Co.

By Fred B. Hunt, Vice-President and General Manager

"More telephones for more people who'll do more talking."

I think that statement outlines briefly what we in the telephone industry see for the future. The Quad-Cities area, not only in 1961, but also in the years ahead.

27th Street May Be Resurfaced

Cost figures are to be prepared for resurfacing 27th street between Benton and State streets and presented to the city council in the near future for consideration as a project next spring.

Alderman Charles Meyer told council members Tuesday night that both pavements on either side of the parkway are "cracking and breaking," and he suggested the streets be blacktopped to prevent further deterioration.

Meyer explained 27th street is not an arterial roadway and motor fuel tax funds would not be available. "We could use funds from the city's road and bridge account," he told the council.

EVENING CIRCLE MEETS AT FREEING HOME

The Evening circle of the Nameoki Presbyterian Church met Tuesday evening in the home of Mrs. Ann Freeling on Myrtle avenue for the last meeting of the year.

Mrs. Bonnie Britton gave the opening devotion, and Mrs. La Fyle read missionary names and offered prayers in their names. A study lesson on "Christ in the Psalms" was presented by Mrs. Britton.

During a brief business meeting, Mrs. La Fyle reported that the December cancer bandage project quota was reached. The meeting was closed with sentence prayers.

A late dessert course was served to Mrs. Mildred Flenor, Mrs. Irma Taylor, Mrs. Fern Mitchell, Mrs. Edith Arbogast, Mrs. Louise Thompson, Mrs. Young Kim, Mrs. Twyla Marum, Mrs. Beatrice Pyle and one guest, Mrs. Pyle's mother, Mrs. Matine Spotted of Fort Dodge.

GC Teachers Attend IEA Meeting In Chicago

Five members of the Granite City school system teaching staff were in Chicago this week to attend the 107th annual meeting of the Illinois Education Association in the Hotel Sherman.

Over 600 delegates from across the state, representing approximately 60,000 IEA members, considered basic problems in school finance, state aid, state revenue reform, state board of education, an appointive superintendent of public instruction, further school district reorganization and other subjects.

Other problems considered were higher training and certification requirements, increased minimum salary and sick leave requirements, higher standards for professional membership, retirement amendments and more rigid application of the association's code of ethics.

Local delegates included Harold E. Briggs, Mitchell school principal and temporary local president; Mrs. Dorothy Frohardt, third grade teacher at Webster school; Miss Nellie Gibson, second grade teacher at Nameoki school; Miss Mary B. Tenekol, fourth grade teacher at Washington school; and Robert Zalewski, instructor at Central grade school. Most of the local delegates planned to return to Granite City today.

Rotary Club Initiates 5; Hears Speech On Sound

Five new members were initiated by the Granite City Rotary Club at its meeting Tuesday afternoon at the YMCA.

They were William Dobry, executive secretary of the Chamber of Commerce; Eugene Coe, Cahokia Mound Boy Scout council executive; Roy Pelster, manager of the local Southwestern Bell Telephone Co. office; Rev. Alfred Bulk, pastor of the Hope Lutheran Church, and Rev. George Seeger, pastor of the First Baptist Church.

Installing officer was Rev. David Maxton, pastor of the First United Presbyterian Church.

Guest speaker was Leo Rowe, of the Union Electric public relations department, who gave a talk on "The Evolution of Sound Recording."

His address traced man's effort to reproduce sound from Edison's original recording machine to the present day hi-fidelity sound. Demonstrations of sound reproduction aided his talk.

A total of 40 members attended the meeting. A. J. Mueller sr. was program chairman. A guest was Rev. A. Ralph Lynn, former local resident, past district governor, of Alton.

Two GC Marines Complete Four-Week Combat Course

Two Granite City marines recently completed four weeks of individual combat training at Camp Pendleton, Calif.

They are Pvt. James E. Goodman, son of Mr. and Mrs. E. Goodman, 2013 Grand avenue, and Pvt. Eugene Waggoner, son of Mr. and Mrs. B. L. Waggoner, 1923 Cleveland blvd.

JONES HONORED ON SILVER ANNIVERSARY

Mr. and Mrs. Arthur Jones, 3234 Colgate avenue, were surprised by friends Tuesday evening with a party in honor of their silver wedding anniversary.

The Jones were married Dec. 27, 1885, at St. Joseph's Church in Granite City. They have two sons, Larry and Phillip.

A gift was presented to the couple, and a late dessert course was served by friends from Troy, Granite City and Collinsville. Cards were played during the evening.

Those attending were Mr. and Mrs. Oliver Arns, Mr. and Mrs. Kenneth Loyet, Mr. and Mrs. Les Bohnenstiel and son, Darwin, Mr. and Mrs. Oscar Merce, Mr. and Mrs. Alvin Loyet, Mr. and Mrs. Peter Gutgesell and Mr. and Mrs. William Russell and son, William Jr.

HOLIDAY VISIT

Mr. and Mrs. E. L. Brockmeier of Downers Grove, Ill., spent the holiday weekend with Mrs. Brockmeier's parents, Mr. and Mrs. W. A. Johnson, 2615 Washington avenue. The Johnsons also had as Sunday dinner guests Mr. and Mrs. Max Merz and children, Laura and Max. The Brockmeiers left early Monday.

Mr. and Mrs. Lewis E. Sabin, 1803 Spring avenue, had Mr. and Mrs. Arthur J. Evenden and son, John, as Christmas dinner guests. The Sabin children are Pamela, Susan, Lynn, Peter and Gail.

Mr. and Mrs. George Durbin sr., 2134 Ohio avenue, had their grandson, Ray Durbin and Mrs. Durbin and Dennis and Donald Durbin as Christmas Day dinner guests. The Durbins spent the evening.

HOSTS AT DINNER

Mr. and Mrs. John Hogan and children, Marcia, Kelly, Sue and Maureen, 2521 Clark avenue, were hosts to Mr. and Mrs. Emil DeMotte, Miss Betty Fraley and Skip Demotte at a traditional Christmas dinner Sunday afternoon.

Five New Street Lights To Be Installed In GC

Installation of five new street lights was approved Tuesday night by Granite City council members who adopted a resolution instructing Illinois Power Co. to erect the lights.

The locations are to be at Peeling road and Colgate avenue, three along Colgate avenue "at suitable locations" and another at 3039 Cayuga street.

Christmas evening with Mrs. Verna Brooks in Edwardsville, along with Mr. and Mrs. F. J. Ream.

November Fines In GC Total \$922 On 79 Counts

The November report of Police Magistrate Gasparovic, submitted to the city council Tuesday night, showed fines of \$922 assessed and collected during the month. The report was referred to the controller and is to be on public display in his office.

Of the total, \$753 was imposed for 85 traffic violations and \$169 for 24 ordinance violations.

HOLIDAY GUESTS

Out-of-town guests visiting at the home of Rev. and Mrs. A. B. Sadler of Kich street for the holidays were Mr. and Mrs. Berthe Bray and children, Doris Faye, Berthe, Lenna, Donna and Danny of Vienna, Mo.; Mrs. Velma Sadler and sons, Michael and Carl Joe of Kirkwood, Mo.; and Mr. and Mrs. Kenneth Dzwelle of Belle, Mo.

Mr. and Mrs. William Eberhardt and sons, Neil and Jim, of Third street and Mr. and Mrs. Robert Eberhardt of Madison visited Monday at the home of Mr. and Mrs. Robert Stoff of Edwardsville.

Paul Hill, son of Mr. and Mrs. Guy Hill of Jefferson avenue, has returned home from the St. Louis Children's Hospital. He is recuperating from a skull fracture which he suffered in a fall.

NEW YEAR'S EVE PARTY

The Venice Baptist Church will hold a New Year's Eve watch party at the church Saturday at 7:30 p. m.

Mr. and Mrs. Tom Kowalski of Washington avenue entertained holiday guests in their home Sunday. Those present were Mr. and Mrs. Jerry Kowalski of Bridgeton, Mo., Mr. and Mrs. Pete Kowalski of East St. Louis, Mr. and Mrs. Homer Blumenstock and family of Granite City, Mr. and Mrs. Alex Kowalski and Susan and Christy Kowalski.

VISIT IN HIGHLAND

Mr. and Mrs. Howard Robertson and family, of Highland had as holiday guests Sunday, Mr. and Mrs. Fred Rumpf and children, Terry and Christine, Mrs. Mary Massman, Alice Mae Massman and Mrs. Ethel Rumpf of Venice, Mr. and Mrs. Howard Robertson of Mitchell and Mr. and Mrs. Joe Brown of University City, Mo. The Robertsons are former Venice residents.

HOLIDAY GATHERING

Mr. and Mrs. Paul Zarlingo of Kerr street entertained with a family gathering in their home Sunday. Guests were Mr. and Mrs. Fred Durer and daughter, Linda, Mrs. Marie Rozyczka and sons, Larry and Richard, Bud Cathey, Mr. and Mrs. Al Zarlingo, Mrs. Lili Durer and Mr. and Mrs. Ernest Zarlingo and children, Marilyn and Phyllis, of Cahokia.

FIRST BIRTHDAY

Mr. and Mrs. William R. Smith, 1201 Klein street, entertained Tuesday evening with a party for their daughter, Cynthia, on her first birthday.

A buffet luncheon was served, and gifts were presented to the honoree. Those present were Mr. and Mrs. Don Knuckles and son, Mike, Mr. and Mrs. Gene Egan, Mrs. Blanche Smith, Phil and Phyllis Smith, Marie Shambro, and Norman McMahon and children, Jim, Jerry and Sandra.

HERE FROM TEXAS

Rev. and Mrs. Raymond Watson and son, Jeffrey, of Ennis, Texas, are spending the holidays with their parents, Mr. and Mrs. Alfred Watson, 2125 Illinois avenue, and Mr. and Mrs. Thomas Cathey, 2022 Washington avenue. Rev. Watson was guest speaker at the Second Baptist Church Sunday evening.

Mrs. Pauline Hayes of Clarkton, Mo., and her nieces, Misses Becky and Brenda Jones, of Paragould, Ark., are visiting her sisters, Mrs. Dena Watson and family. The nieces also visited Mrs. Ada Kayser of St. Louis.

The Glad Girls Junior Auxiliary met at the Second Baptist Church Tuesday with the counselor, Mrs. Evelyn Smith. The junior manual was studied by the group. Those present were Carol Newberry, Nancy Newberry, Patricia Davis, Connie Wigger and Debra Barden.

Dick Miller Primary Sunbeams met Tuesday afternoon at Second Baptist Church. The group concluded its study of South America by drawing a large mural about that country.

A "get well" booklet was made for a church member who is ill. Singing was held and a story and prayer were given by Mrs. Betty Lewis and several Sunbeams. Plans were made to begin a study of Indians starting Jan. 3. Time was spent in conversation about Christmas bibles, and prayer was given for a revival now being held at the church. Those present were: David Freeman, Frances Willy, Robert McCord, Nicki Tooley, Kathy Farley and Joyce Barden.

Water Main Leak

A leak in a water main in the Devon Hills subdivision was discovered about 11 p. m. Wednesday. Officials of the East St. Louis & Interurban Water Co. were notified by police.

March Of Dimes Drive To Start Next Thursday

The 1961 "New March of Dimes" drive will be officially launched with a kickoff dinner at 6:30 p.m. next Thursday at the Rose Bowl restaurant according to Mrs. Roberta Lambert, drive chairman.

Speaker will be Andrew Closs of Springfield, southern Illinois representative of the national organization. Attending will be the chairman of various committees.

Coin Card Distribution
First efforts, however, will be made Tuesday when the Civic Affairs committee of the Moose Lodge 272 will begin distribution of coin cards at area business places. The cards will remain there until the end of the drive on Jan. 31.

On the same day, Rebekah Lodge 477 will solicit funds on the streets by selling miniature "blue crutches." Proceeds from the one-day collection will be presented to the drive chairman at the dinner.

Lodge Chairman
Chairman of the Moose committee is Clarence Meyenberg, and chairman of the Rebekahs is Mrs. Glen Hilliard.

During the month, other committees will be active in obtaining contributions. Coin-cards will be given grade school children and high school students, and the Catholic Youth Organization will take steps to collect funds.

Also, plans will be afoot to make solicitations to industries and commercial businesses.

Mother's March Planned
Near the end of the drive, a mother's march will be held on a door-to-door basis.

Committee chairman for the drive includes Russell LaRosa.

\$9891 Bills For Week; \$196 For Street Salt

A bill list totaling \$9891 was approved Tuesday night by Granite City council members, who were informed by the Finance committee that an \$8447 item represented a transfer of the amount from the arterial street maintenance fund to the city's general street fund.

The state highway department, through the arterial street program, pays the city for maintenance of arterial streets, and the \$8447 represents rental of city equipment — 360 hours of gravel time at \$2.81 an hour; trucks, 184 hours at \$1.95 an hour; sweeper, 500 hours at \$5.08 an hour; high-lift, 860 hours at \$1.96 an hour and tar kettle, 120 hours at 29 cents an hour.

Costs of maintaining and fueling all city's vehicles and equipment for a week's period amounted to \$448.

A new item on the bill list — caused by the weather — was 20,000 pounds of salt for spreading on streets. The cost was \$194 from the arterial street fund. Also, 100 pounds of sidewalk salt was bought at a cost of \$2.50.

Among other items on the bill list were \$30 December expense allowance for Alderman Steve Basarich, \$30 for Alderman Frank Vesel, \$30 for Civil Defense Officer Victor Koenig, \$50 for John Becker for tending the furnace at the old fire station building during December for the civil defense organization and \$13 paid to the U. S. Treasurer as the city's share of cost of labor in operation of the sewer pumping station during October.

Hearing Tomorrow For Motorist In Crash

A hearing is set tomorrow before Police Magistrate Andrew Casparovic for Miss Betty Love, 19, of 1120 1/2 Meridian street, who was arrested on charges of driving too fast for road conditions in an accident this week on Highway 162 near the blast furnace division of Granite City Steel Co.

State troopers said Miss Love's auto swerved into a ditch when she attempted to pass another auto on the right side while its driver, Wallace Smock, 26, of 2473 St. Clair avenue, was attempting to make a right turn. There was considerable damage to the left side of the Love auto.

Eagle Badges To 40 Scouts Here Tonight

Richard O. Tibbals, Chokio Mound Boy Scout Council president, will present Eagle badges to 40 scouts, including 15 Quadtians, during an annual court of honor at 8 o'clock tonight in the Madison high school auditorium. Advancement Chairman Jack Friedman will present the group.

The public will be welcomed at the ceremony. The group will be known as the golden jubilee class due to scouting's fiftieth anniversary.

ICC Acknowledges GC Bid For RR Repairs

(Special from Springfield)

Commissioners of the Illinois Commerce Commission this week acknowledged receipt of a petition from the city of Granite City requesting repairs to five railroad crossings. The commission indicated a hearing would be conducted to receive testimony.

The city petition calls for five railroads to repair, improve and "properly maintain" their tracks and right-of-way across 29th street, Niedmuths avenue, 20th street, 22nd street and Omaha street.

In the petition, prepared by City Atty. William L. Beatty, it is pointed out that the crossings are used by a large number of

motor vehicles and that "due to lack of proper maintenance and repair, the right-of-way and track crossings have deteriorated to such a condition that they are rough, uneven and broken so as to make the passage of motor vehicles . . . dangerous and hazardous."

An inspection of the crossings requested, and the city asks the commission to send notices to the railroads.

\$100 In Nickels For Free Overtime

Following a re-audit of the ledger and with all disbursements tallied, the Associated Retailers & Civic Association today said that approximately \$100 in coins were deposited in curbside meters to provide Christmas shoppers a "free" hour of overtime parking.

Under the program to make was too low, said Alvin T. home town shopping easier and more attractive, motorists paid the association.

When the "overtime" signal flag showed, patrolling metemen put an additional nickel in the meter. Along with it went a printed card, advising the motorist of the retailers' courtesy. An earlier estimate of the outlay for "overtime free parking" was \$100.

City May Regulate Distribution of Milk

Preparation of an ordinance to control and regulate the distribution of milk in Granite City was ordered during Tuesday night's meeting of the Granite City Council.

Alderman Arthur Wiese said he has learned St. Louis dairies have been underwriting the local concerns to stem competition, and that the city should require all dairies to date their milk cartons not only to protect consumers but also to protect local dairies.

"We talk about attracting new industry to this city, and we also should be concerned with protecting the small industries we now have," the alderman said.

He called upon City Atty. William L. Beatty for a legal opinion and was told the city could set forth regulations for all dairies distributing milk in the municipality.

Beatty added that he had conferred with local dairy operators about a year ago and they were to submit samples of milk for analysis to the city for consideration.

Other business transacted by the council included acceptance of two catchbasins installed by Kent Realty Co. along Westchester drive, granting permission to Rebekah Lodge 477 to solicit funds next Tuesday for the New March of Dimes campaign which opens next month and approving \$1000 bond for seven watchmen at the General Steel Castings Corp. plant.

The watchmen listed were Obie H. Beasley, James H. Nas Robert P. Richardson, Everett A. White, Ralph Lee Zang, George P. Waterman and William H. Warfield.

Forms Available Jan. 3 For Alien Registration

Forms for alien registration will become available Tuesday at local area post offices.

Aliens are required by law to complete the forms and return them to the post office not later than Jan. 31.

Exception, are those who are accredited persons in certain international organizations, accredited diplomats, and those admitted as temporary agricultural laborers.

Four Traffic Charges

Charges of speeding and failing to observe three stop signs were placed against a motorist arrested about 2 a.m. today by Granite City police. Armin M. Herrera, 23, of the 185th Engineer Co. of the Granite City Engineer Depot, posted his driver's license as bond for a hearing Saturday. The stop signs listed by police were on Niedringhaus avenue at Chestnut, Maple and Poplar streets.

Clothes Collection Bags Filling In Area Drive

The brown manila clothing collection bags are being filled this week from attics, bureau drawers and the basements of the Quad-Cities as the Goodwill Industries campaign continues.

The drive to fill the Goodwill bags will continue through Saturday, Jan. 7, under an extension stemming from the weather prevailing during the opening week of the effort.

The Labor Temple at 2014a State Street, is the principal collection depot for the filled bags, and canvassers are to leave them there.

Several industrial plants have designated depots for deposit of the bags.

215 Sacks Filled

Up to today, about 215 collection bags have been filled with used, serviceable items of wearing apparel, along with repairable footwear, useable headgear, floor coverings, bed linens, and discarded but still usable kitchen utensils.

All collections are taken to the St. Louis workshops of Goodwill Industries.

There, they are cleaned, repaired, reconditioned and refurbished by handicapped individuals, many otherwise unemployed. The items are then sold through the Goodwill Stores, and from this revenue, the Industries' program of rehabilitation, job-training, and employment is carried forward.

Motorist Charged With Speeding, Running 5 Stops

John L. Elkins, 20, of the 185th Engineer Co. of the Granite City Engineer Depot, was arrested about 2:45 a.m. today by Granite City police who charged him with speeding and failing to observe five stop signs. He posted his driver's license as bond for a hearing Saturday.

Police said Elkins went through three stop signs on Niedringhaus avenue at Chestnut, Maple and Poplar streets and also stop signs at Oak and Poplar streets and at Poplar and West 20th street.

Lockout Assist

Granite City police were called to the aid of a woman who was unable to get into her home in the 2400 block of East 25th street about 10:45 a.m. Wednesday. The officers broke a window to gain entrance.

Two Revisions Sought In Tax Assessments

Two resolutions are considered today by the Madison county township tax assessors in a meeting at the court house in Edwardsville.

The resolution calls for the elimination of household furniture assessment, and a minimum of \$500 for assessment of personal property owned by persons over 65 years old.

The 24-member group also is discussing problems which may entail changes in real estate assessment beginning Jan. 1.

Changes may consist of lowering of valuations through fire loss or demolition to buildings as well as improvements and property additions.

Local area assessors slated to attend the meeting are Joseph J. Cohan, Nameoki; Otis Roy Reeves, Chouteau; Joseph Bergrath, Venice and Von Dee Cruse Granite City.

Mrs. Sterling Knibb, Born Here, Dies Tuesday at 33

A native of Granite City, Mrs. Mildred M. Knibb, 33, died Tuesday at St. Francis Hospital, Litchfield. In failing health for several months, she had been hospitalized but one day.

She was the wife of Sterling Knibb and mother of eight children. Her home was at Bunker Hill.

Mrs. Knibb was the daughter of the late Mr. and Mrs. Louis Huebner, and she was born in Granite City on Aug. 8, 1927. Funeral services and burial will be Friday at Bunker Hill.

IT'S A DILLY! (BEAN)

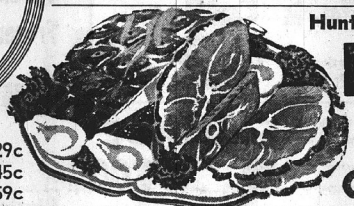

The expression is not new, but the item is. We don't suggest you eat these 3 times a day, but if you have a weight problem you can solve it with Dilly Bean, only 1% calories per bean! The Dilly is a delicious appetizer and can be used in salads, sandwiches, cream cheese and beef Stroganoff. Here's another "first" for Tri-City Groc. Co. which always strives to bring its customers the newest items on the market.

P. S. Please don't buy too many, as our stock is limited!

FINAL PARTY FOR TROOP

A Christmas party was held for Girl Scout Troop 111 Tuesday at the home of the leader, Mrs. Sally Bosworth, 1661 Second street. The home was appropriately decorated for the holiday season. Christmas gifts were placed around the lighted tree for each girl and there were several gifts for the leader.

The girls opened their gifts and played games, with Pat Moss, Pamela Hinson and Nancy Layman excelling. Prizes were awarded for the games.

A buffet luncheon was served, including a variety of Christmas cookies and hot chocolate. Girl scouts present included Alice Grimes, Paulette Voloski, Pat Moss and Pamela Hinson. Guests were Nancy Layman, Marcia Gitchco and Donna Schleeter, former members of the troop. No further meetings will be held, as the troop is disbanding.

CLUB HOLIDAY PARTY
Mrs. Billie Bosworth was hostess to the Chatter Canasta club Tuesday evening for a belated Christmas party in her home, 1653 Fourth street. Names had been drawn at a previous meeting for a gift exchange. Each member opened her gift during the evening, which was just spent as a social evening around the decorated tree.

The home was decorated in a Christmas setting. The table was decorated with Christmas appointments. Present were Mrs. Annie Laura Platt, Mrs. DeLoyce Rhoads, Mrs. Mattie Bosworth, Mrs. Jeannine Bosworth, Mrs. Rae Miller, Mrs. Bernice Gushoff and Mrs. Sally Bosworth.

Christmas was observed at the home of Mr. and Mrs. Edward Dennis and son Eddie, in Troy, Ill., with a family dinner served to Mr. and Mrs. Fred Plebanek of Granite City, parents of Mrs. Dennis, and Mr. and Mrs. Benjamin Bosworth and children, Beverly, Veronica, Benny Jr., Robbie and Freddie. Mrs. Bosworth is also a daughter of Mr. and Mrs. Plebanek and the sister of Mrs. Dennis.

The same group also had visited in the home of the Bosworths, 1661 Second street, and Monday was spent with the group at the Plebanek home. The homes were decorated in keeping with Christmas. Gifts were exchanged and opened.

Mr. and Mrs. David Richardson and children, 2115 Troy avenue, Madison, entertained relatives in their home during the holidays. Supper was served on Sunday to Dr. and Mrs. C. W. Foley and children, Ann and Ed Charles, of Lafayette, Ind., and Mrs. Virgil Voss of Marshall, Mo., Mrs. Nellie Yale, Goodman, Mo., Miss Nellie Foley, Kansas City, Mo., Mr. and Mrs. Ivan Ping and children, Nancy, Donna and Lesley, of O'Fallon, Ill., and Mr. and Mrs. John Richardson and daughter, Janet, of O'Fallon, Mo. Mrs. Yale, grandmother of Mrs. Richardson, and Miss Foley remained to visit at the Richardson home.

Mr. and Mrs. Roy Powell of Columbia, Ill., held a Christmas observance in their home, with the invited guest being Mrs. Cora Little, mother of Mrs. Powell, and the Powell's daughters, sons-in-law and grandchildren.

Present were Mr. and Mrs. Robert Luckert and daughter, Janet, Mr. and Mrs. Robert Quinn and sons, David and Bobby, and Mr. and Mrs. Dale Stumpf and daughter, Sandy. Mrs. Little opened gifts which were presented to her by the grandchildren and Mr. and Mrs. Powell. The group enjoyed lunch and dinner at the home.

RETURNS TO CALIFORNIA
Miss Shirley Stovroff, who is residing in Englewood, Calif., flew home for the Christmas holidays to be with her parents, Mr. and Mrs. Louis Stovroff, 4654 Madison avenue, and other relatives and friends in this area. She returned to California Tuesday.

Selling Your Home? CALL REINHARDT

HOLIDAY VISITOR

Mr. and Mrs. Joseph Smith entertained Miss Kathleen Kutner of Peru, Ind., in their home, 1013 Iowa street, Madison, over the holidays. Miss Kutner returned to her home Monday, where she is a grandniece of Mrs. Smith.

REBEKAHS PLAN DRIVE

Delray Rebekeah Lodge 786 members met Tuesday evening at the Odd Fellows hall in Madison, with the noble grand, Mrs. Ruby Wood, presiding. A short business meeting was conducted, with each member receiving material and instructions for the Blue Crutch Tag drive to be held Jan. 3.

CHRISTMAS VISIT

A public installation will be held at the hall on Jan. 24 at 8 p. m. It is to be formal. Fifteen members responded to roll call, and there were three visitors, Mrs. Edith Carpenter, Mrs. Watson and Mrs. Nell.

MONTGOMERY OF THE VENICE LODGE

Mr. and Mrs. Al Barbe, 1724 Fourth street, returned Monday from a weekend visit in Independence, Mo., with their son-in-law and daughter, Dr. and Mrs. Kenneth Mangels and family.

HOLIDAY VISITORS

Mr. and Mrs. Ervin Adams and son, Ross, of St. Clair, Mo., left today for their home after visiting this week with relatives in this community. They were houseguests of Mrs. Adams' sister, Mrs. Maxine Ducas, 1536 Fifth street.

VISIT IN TENNESSEE

Mr. and Mrs. George Hommert and daughters, Marian and Jean, spent the Christmas holidays with Mrs. Hommert's brother-in-law and sister, Mr. and Mrs. John Dougher and children, Chris and Johnny, in Memphis, Tenn. Christmas gifts were opened around a decorated tree by the two families. The Hommerts returned to their home, 1919 Fourth street, Monday evening.

Further improvements to the 200-foot by 100-foot skating rink at Wilson Park were outlined last night during a meeting of Granite City park district commissioners.

Twenty sets of 12 lights has been installed for night skaters and the district also has been providing logs for bonfires since the rink was first opened.

It has attracted hundreds of skaters since last Thursday; and over the holiday weekend, a number of youngsters appeared with their Christmas gifts.

With temperatures rising and falling at different rates in recent days the rink has been closed on several occasions, but not enough to prevent skating. It was reflooded last night.

Once warmer weather arrives and the rink is reflooded, it will be regarded as improved.

Mrs. Anna Nolan, 70, who for some 39 years was employed in the kitchen at St. Elizabeth Hospital, can claim the distinction if not the "happy privilege" of being the first patient to be moved into the first floor annex to the hospital.

As the very first patient to be moved into the \$3,000,000 Dr. R. W. Binney wing, Mrs. Nolan was taken into her new room on Dec. 18. It is on the first floor.

She is undergoing treatment for a heart condition. Mrs. Nolan lives at 2116 Iowa street.

Mrs. Nolan said she was fully acquainted with the main, old portion of the hospital, and was becoming acquainted with the new under conditions she doesn't entirely relish.

Granite City PRESS-RECORD
Page 20 Thurs. Dec. 29, 1960

have recently received promotions. Cpl. Jack Mitalovich has been raised to the rank of sergeant at Fort Bragg, N. C., Dental Supply Center. He has been in service eight years.

Capt. Frank McDermott of Moundsville, W. Va., who has just completed an armored course at Fort Knox, Ky., is now armored advisor for the West Virginia National Guard. He was recently inducted into the regular Army from the Reserve Corps.

\$15,531 MFT For County
Madison county has been allocated \$15,531 as its share of motor fuel tax paid into the state treasury during November. It was announced this week by Director E. H. Jenison of the Illinois Department of Finance. The amount shared by the 103 counties totaled \$1,210,760.

The Federal Communications Commission, in an opinion disclosed today in Washington, D. C., upheld the finding of its hearing officer and awarded a Granite City radio station permit to the Tri-Cities Broadcasting Co.

Original granting of the license was made to Tri-Cities Broadcasting Co. by the hearing examiner earlier this year. An appeal was taken by the two competing applicants, Madison County Broadcasting Co. and East Side Broadcasting Co., and the hearing on which took place today. The hearing was based on Dec. 16 before the full commission.

Tri-Cities Broadcasting Co. is owned by Charles Norman, St. Louis, majority stockholder, and John Karoly and George Moran, Granite City, minority stock-

The Mahoning County Broadcasting Co. application was filed by eastern interests, and the East Side Broadcasting Co. application was filed jointly by the Press-Record C. E. Townsend, Ruth Townsend and Randall Robertson.

A meeting of the American Legion Auxiliary, Unit 113, was held last night with 25 members present. A contribution was made to

the muscular dystrophy fund and reports were given of three baskets of fruit distributed to shut-ins, two baskets of groceries to needy families and Christmas gifts to the Madison County Sanatorium patients in Edwardsville.

After the meeting, a social hour was enjoyed, and prizes were won by Mrs. Lumeta Durbin, Mrs. Dollie Brewer, Mrs. Nora Carver, Mrs. Ethel Pettit and Mrs. Mildred Rees.

Leslie Lynn Lombardi, four-year-old daughter of Mr. and Mrs. Mike Lombardi, 2108 Amherst avenue, celebrated her birthday at a party given by her parents Wednesday afternoon.

Holiday appointments were used and the refreshment table held a large decorated birthday cake.

ARTHRITIS?

I have been wonderfully blessed in being able to return to active life after suffering from head to foot with muscular soreness and pain. Most of my joints seemed affected. According to medical diagnosis, I had Rheumatoid Arthritis, Rheumatism and Bursitis. For free information write:

MRS. LELA S. WIER
2805 Arbor Hills Drive-849

Games were enjoyed by the children and awards were made to Don Shone, Vernon Lockridge, Duane Atchley, Gary, Danny and David Rushing, Patti Kovar, Christy Roth, Stephanie Roth, Annette Favier, Christy Lombardi, James Dugan and Michael Lombardi.

Another party was held in the evening for relatives and friends of the young guest of honor.

Lois Hodge

W. of the Cochrane Agency are grateful to

our clients, friends and everyone who helped make

1960 the greatest year in Cochrane history. Business-

wise our business increased very nicely indeed, in

both real estate and home insurance, but our great-

est pleasure was in creating new friendships, and

renewing old acquaintances with real folks — our

customers.

So, again may we say

CHIEF OF SUPPLY OPERATIONS for the Army Engineer Supply Control office in St. Louis, Freddie T. Belcher, 2112 Waterman avenue, Granite City, is shown with high-ranking Iron Army officers during their visit to key Corps of Engineers activities in the U. S. While here they received a briefing on supply methods and organization. From left to right, back row, are Lt. Col. Eugene L. Holle, special assistant Supply Control Office; Col. Homayoun Nouban, Col. Abolghasem Ghahri and Col. Ali-Asghar Masoumi of the Iron Army; and Capt. W. P. Sewel, U. S. Army, escort. Front row, from left, are Capt. Reza Golestan; Belcher; and Iran C. Hosseini.

Police Chiefs Urge Careful Driving On Holiday Weekend

Local chiefs of police whose advice on safe winter driving has become a familiar annual event, today issued a warning to motorists of the year-end holiday season.

"We appeal to all our citizens to help end the old-year, and start the new in a safe and sane manner," Chiefs Raymond Willard, Barney Fraundorfer and Robert Trower said. "and if anything we say can help bring that about, we are certainly willing to say it."

The chiefs referred to a survey published by the National Safety Council concerning motor vehicle deaths over the 1959 New Year weekend. It showed that 374 lives were lost throughout the nation - the "highest 3-day total ever recorded for New Years, almost equalling the 1951 and 1950 4-day death tolls of 375 and 377 respectively."

"It is a matter of that performance is due, we certainly hope that our city's, at any rate, will have no part in it," the chiefs commented.

The chiefs pointed out that the council's survey named unsafe speed as a factor in 52% of the accidents. "Certainly improper speed should have no place in our New Year driving plans - and particularly if a bad turn in the weather should cause hazardous road conditions," the chiefs emphasized.

Drinking was cited as a factor in 38% of the accidents. "Need we say more?" the chiefs asked.

The National Safety Council study noted that ever non-collision accident occurring in urban areas, and three in every five non-collision accidents occurring in rural areas, involved a drinking driver. Non-collision accidents accounted for 27% of the total.

Multi-vehicle collisions were the most common type of accident reported, which means that even the most law-abiding drivers must be on the defensive against those who allow the hazy nature of their celebrating to blot out their normal respect for traffic laws, the chief warned.

"This may seem like a pretty grim method of wishing everyone a Happy New Year," the chiefs concluded, "but that's exactly what we have in mind in bringing these matters to public attention."

New Mitchell Kiwanis Officers To Take Posts

New officers of the Mitchell Kiwanis Club, officially will assume their posts at the club's meeting Monday, although installation will not be held until Jan. 9.

Taking office will be Thomas Smith, president; John Sands, first vice-president; Lee Barker, second vice-president; Uel Burford, treasurer; and George Steinhilber, secretary.

In an effort to prepare for the upcoming year, President-elect Smith at the meeting Tuesday will examine the club's books.

The audit committee, composed of John Sands, Lee Barker and George Steinhilber, began duties Tuesday by examining the club's books.

The budget committee includes Francis Richardson and John Meadows, who will map the 1961 budget.

On the program Tuesday was a filmed history of the automobile, presented by President Robert Franko, program chairman.

Twelve members attended the meeting.

Don Born To Former Resident

Announcements have been received of the birth of a son, their first child, to Mr. and Mrs. Harold Hicks of Escandido, Calif. The infant, whose weight was seven pounds, three ounces, arrived Dec. 22. He has been named Jeffrey Lloyd.

Mrs. Hicks will be remembered as Naomi Herman of this city.

Building Permits In Venice Total \$3800

Building permits issued in Venice during December have totaled \$3800, a tabulation showed today.

Largest of the projects is a three-story house at 325 Merceda street owned by Joe Radman. The work is expected to cost \$3000 and will include a foundation and new siding.

A back porch will be enclosed at the home of Thomas Boush and 519 Jefferson avenue, at a cost of \$300, and a frame room will be added to the Robert Rensbury residence, 307 Weaver street, at a cost of \$300.

Clyde Wadlow Jr. Here To Visit Parents

Clyde Wadlow Jr., whose parents are Mr. and Mrs. Clyde Wadlow sr., of 2501 Jerden avenue, is spending the holidays at home.

Wadlow is with Players, Inc., a national repertory touring company out of Washington, D. C., touring the United States.

While at the University of Illinois he played Lorenzo in the Merchant of Venice. He was also seen at the university in Cane Mutiny Court-Marshall and as Henry Arrows in Skin of Our Teeth, the Ragpicker in Madwoman of Chailot and Benjie in The Country Girl.

Later at Quincy College, though he majored in art and took his degree in that field, he continued to play leads in Show Boat, Charlie's Aunt, and as Macbeth and Hamlet. Major productions at Catholic University of America, where he went to work for his M. A. degree in drama, found him still in leading roles.

Teacher Scholarship To Miss McManaway

Nancy Lee McManaway, Madison high school graduate and daughter of Mr. and Mrs. Chester L. McManaway of 1681 Second street, Madison, is the recipient of one of three additional teacher education scholarships to be awarded to graduates of Madison county high schools. It was announced this week by State Superintendent of Public Instruction George Wilkins.

How Christian Science Heals

Miss McManaway is eligible to receive fees for instruction, tuition, activities, graduation and matriculation at any one of five state universities in Illinois in the teacher education program.

One graduate of Collinsville high school and another from Civic Memorial high school at Bethalto were named on the latest list of scholarship recipients, which supplements scholarship awards made earlier by the state.

THE SNOWFLAKE

Like a New Year comes upon us bright, unmarred and in full perfection. The moment it touches the earth all beauty and perfection are gone. While we may try to turn over a new leaf we are always present. What a wonderful time in this New Year to accept God's gift - His Son - "Who his own self bore our sins in his own body on the tree, that we, being dead to sins, should live unto righteousness by whose stripes ye were healed." 1 Peter 2:24
